Softline Brochure - Version 3.3

Testimonial:

"We used Brochure in a marketing campaign for our documentation services. Of 100 diskettes mailed to non-customers, we have already landed 1 large account and have 5 more solid prospective customers. I really noticed the advantage of Softline's talking Brochure over the standard "junk mail" written brochure when I did follow up calls. They immediately recognized Alta Copy as the "talking Brochure" printing company. Brochure really helped us stand out from the competition."

by **Ramey Bell**, Account Executive of Alta Copy & Print, Bellevue, Washington

Advertising in the 90's!. A slide show program that talks with your own voice!.

Brochure is a commercial advertising tool for companies who want to communicate a promotional message to the Windows market. Assemble your talking **Brochure** and distribute it freely (no royalties) through tradeshows, mass mailers, hand outs, bundle with hardware, etc.. Up to 100 picture and sound files in one show!.

Brochure automatically accesses a Windows Write file from within the program for detailed, written information (ie: product catalogue, pricing, service bulletins, new product announcements, etc.). The person to whom you hand your computerized brochure may print out your detailed information from within Windows Write.

Includes INWIN: Windows utility program for an easy end-user installation. You may customize INWIN for your particular Brochure and distribute freely (only with your Brochure) or simply run the program from the floppy drive. Penetrate those tough accounts with a Talking Brochure!.

Passed: Microsoft Compatibility Testing for Windows.

Requires Microsoft Windows 3.1, Sound board, and microphone to create the sound files. Windows Paint or some other third party graphics creation software (save as .BMP files) to develop the picture files. **Softline Brochure** does not require any extra hardware to play back the sound files - operates through the PC internal speaker (Windows 3.0 or 3.1 / standard or enhanced modes) or installed sound device (Windows 3.1).

Licensed Version - **\$99.95**

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Softline Resumé - Version 3.3

Job hunting in the 90's!. A slide show program that talks with your own voice!.

Resumé helps you assemble a Windows compatible electronic resumé (talking floppy disk) and distribute them (royalty free) to potential employers. Automatically accesses a Windows Write file from within the program for detailed, written information (your resumé) on yourself. The employer may print out your information from Windows Write. Includes INWIN: Windows utility program for an easy end-user installation. You may customize INWIN for your particular resumé and distribute freely (only with your Resumé) or simply run the program from the floppy drive. Grab their attention with a Talking **Resumé**!.

Passed: Microsoft Compatibility Testing for Windows.

Requires Microsoft Windows 3.1, Sound board, and microphone to create the sound files. Windows Paint or some other third party graphics creation software (save as .BMP files) to develop the picture files. **Softline Resumé** does not require any extra hardware to play back the sound files - operates through the PC internal

speaker (Windows 3.0 or 3.1 / standard or enhanced modes) or installed sound device (Windows 3.1).

Licensed Version - **\$29.95**

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Look And Listen Series - Version 5.0

A pre-school, instructional slide show program series that talks through the PC internal speaker (Windows 3.0 or 3.1) or installed sound device (Windows 3.1). Great for teachers and parents to introduce their young students to the wonderful world of learning. Colorful pictures with associated sound files will grab the child's attention. Learn ABC's, Counting, Opposites, Shapes, Colors, about Animals and Dinosaurs. Includes Sound and Loop adjustment dialog boxes. Turn the Sound OFF, adjust the delay between pictures, and test your students' knowledge. Have more fun re-coloring the existing picture files from within Windows Paint. Use that home computer and get that child started with "Look and Listen"!

Passed: Microsoft Compatibility Testing for Windows.

Requires: Microsoft Windows 3.0 or 3.1 in Standard or Enhanced modes.

Licensed Version - each program - **\$ 9.95**

Get all 7 Look and Listen programs for..... - \$39.80

(7.5MB hard disk space is required)

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Talking Slideshow - Version 3.3

A slide show program that talks with your own voice!. Simply substitute your picture and sound files for the Softline files. Assemble your own professional presentations for tradeshows, business meetings, training seminars, etc.. Includes Sound and Loop adjustment dialog boxes. **Talking Slideshow** does not require any extra hardware to play back the sound files - operates through the PC internal speaker (Windows 3.0 or 3.1 / standard or enhanced modes) or installed sound device (Windows 3.1). **Talking Slideshow** is similar to **Picture It With Sound** except it does not Auto-stretch/shrink the picture files. If you will be using scanned photographs and/or 256 color or higher picture files, then **Talking Slideshow** should be ordered instead of **Picture It With Sound**. Auto-stretch/shrink tends to distort high resolution picture files. Up to 100 picture and sound files in one show!.

Passed: Microsoft Compatibility Testing for Windows.

Requires Microsoft Windows 3.1, Sound board, and microphone to create the sound files. Windows Paint or some other third party graphics creation software (save as .BMP files) to develop the picture files. Licensed Version - **\$ 9.95**

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Picture It With Sound - Version 5.0

A slide show program that talks with your own voice!. Simply substitute your picture and sound files for the Softline files. Create your own lessons, tutorials, and other works like the "Look and Listen" programs. Includes Sound and Loop adjustment dialog boxes. **Picture It With Sound** does not require any extra hardware to play back the sound files - operates through the PC internal speaker (Windows 3.0 or 3.1 / standard or enhanced modes) or installed sound device (Windows 3.1). Features picture file Auto-strech/shrink. Up to 100 picture and sound files in one show!.

Passed: Microsoft Compatibility Testing for Windows.

Requires Microsoft Windows 3.1, Sound board, and microphone to create the sound files. Windows Paint or some other third party graphics creation software (save

as .BMP files) to develop the picture files. Licensed Version - \$ 9.95
The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

World Clock for Windows - Version 4.0

A clock program that displays a colorful map of the world and tells the time for any particular time zone. Major cities such as New York, Hong Kong, and London, with their current times, are displayed and scrolled at the top of the World Clock Window. All times are updated to the minute. A handy time zone feature shows the time in the particular highlighted zone or by the major city within the zone. Auto-stretch feature lets you grow or shrink the map size within the World Clock Window.

Requires Microsoft Windows 3.0 or higher in Standard or Enhanced modes.

Licensed Version - \$ 14.95

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Ticker for Windows

Create a ticker tape message on your computer screen to let co-workers, mothers, fathers, siblings, wives, husbands, cousins . . . just about anyone know What, When, Where, and Why. The size and speed of the message is variable.

Requires Microsoft Windows 3.0 or higher in Standard or Enhanced modes.

Licensed Version - \$ 9.95

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Ticker for DOS w/ Source Code

Same as Ticker for Windows except no font sizing. You may position the message on any line (1 - 24) of your computer screen. Leave a detailed message on your screen while you are away. Registered users will be sent the executable as well as the Pascal source code for Ticker for DOS.

Requires DOS 3.1 or higher.

Licensed Version - \$ 19.95

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

Read

A simple ASCII file viewer for DOS 3.1 or higher. Use it to communicate specific instructions to your users - great tool for developers and shareware vendors. The program includes 8 keyboard commands to move around the file(s) and exit to DOS. Read is available for licensing to single users and commercial (redistribution/bundling) users.

Requires DOS 3.1 or higher.

Licensed Version (Single User) - \$ 9.95

Licensed Version (Commercial User) - \$ 199.95

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.

InWin - Version 4.0

InWin is an global installer for applications and files running under Windows versions 3.0 and 3.1 or DOS applications/files installing into the Windows environment. InWin eliminates any problems that even an inexperienced end-user may encounter. This equates to less anxieties from your customer, increased productivity, and a positive introduction to your product.

Targeted at Software Developers/Authors and Shareware Vendors, InWin offers the following functions and capabilities: error checking and informational dialog boxes, display your headers, footers, title, program name, and final dialog box instructions, point and click end-user Help available within InWin, use your favorite DOS Self-

Extracting Executable compression routine, global directive option to install specific files to the Windows Directory or Windows System Directory, Automatically append Autoexec.BAT and/or Config.SYS, change/Add specific parameters within System.INI and/or Win.INI files, "Gas Gauge" indicator for current Percentage complete of your install process, up to a 10 diskette install, less than 50kb diskette space required for InWin, quick and easy installation changes through the script file.

Requires: Microsoft Windows 3.0 or 3.1, Windows Notepad or some other standard ASCII file editor.

License Fee per Application - **\$ 99.95**

Licensed Fee (3 or more Applications) - **\$299.95**

The licensed version fee includes a manual, removal of pester screen(s), the most current version of the software, and technical support.
