

Long Haul Rail specialises in freighting fragile and dangerous goods. Goods must have fragile stickers on them (available from Long Haul Rail sales offices). Long Haul rail picks up fragile and dangerous goods from rail yards at most cities.

**What is a fragile good?**

- A good that would be inoperable or unacceptable for sale if dropped from any height greater than half a meter.

**What is a dangerous good?**

- A good that could cause damage to the environment, or goods around it if spilt or let out of container or holder.

**Prices**

- Two times the normal Prices
