RISC User

H PDX9H

This disc contains a collection of image processing software. Process is a powerful 256 colour image processing application described in RISC User 6:9. Translator v7.12 is the popular public domain image conversion utility. Creator converts sprites into non-Acorn formats. GreyEdit is a 256 greyscale image processor.

PDY1 - Database Management

Powerbase v4.91 is a powerful database management system written by Derek and Steven Haslam and available as Shareware. It contains most of the features found in expensive commercial packages. Full database systems with interactive user interfaces can quickly and easily be designed. Powerful data validation facilities are available, and the system provides a full script language. The software comes with extensive instructions and a tutorial in the form of an on-line manual. Three sample databases are also provided, including one of chemical elements and their properties. This is an essential item for the home or school computer.

PDY2

A collection of superb utilities including Out To Lunch (attractive screen saver), KeyWindow (on-screen function keystrip), TemplEd (an alternative to Acorn s FormEd), Menon (version 2.06 - the latest version of this application launcher), and BlibII (the Basic V Library management system).

PDY3

The Software Developer s choice: Zap (version 0.90 of this very flexible file editor), ArmSI (a comprehensive speed indexer), ArcTools (50 *commands including memory and disc editors), and Glazier (yet another template editor).

PDY4

If you ve ever wondered how the graphical

Our Public Domain discs contain as near as possible to 800k (and not less than 700k). Each disc includes a 'Read Me' file, and instructions are included with the programs. The discs are offered as seen and are available to RISC User members only for the price of just £1.60 each.
