The Aim Of This Project, Is To Share My Passion With All The Techno And Electronic Music Lovers In The World. Techno Is More Than A Movement, It's A Lifestyle, The State Of Mind Of Many Young People In The World. This Is Not The Evolution Of Music But A Continuous Revolution Following The Perpetual Motion Of Technology And Our Evolving Modern Communication System.

The Spirit Of "LabWorkS Records" Is To Try To Follow The Needs Of Sounds & Images. In Order To Introduce The Interactive Way Of Enjoying Music, Module Files Of This Project Are Likely To Feed Your Dream Appetite.. The Techno Culture Is Young But Wide And Wise. If You Are A Freedom Lover, Non Violent, Eager To Know, Non Conformist, In One Word ... A Dreamer, You Are A Techno Lover.

I Would Like To Thank My Parents And All The People Who Helped Me To Express The Way I Live And Think Through My Music. Music Will Be More Intellectual, Spiritual, Maybe Subliminal. We Must Be Aware Of The Danger Of The Subliminal Power And Use This Power In The Best Way...

All My Techno Respects.
