**Showbiz Commercial Time Cards 2.0
Calculate Your Staff & Crew Time Cards On Your PC,
Then E-Mail Them To Your Payroll Provider**

Los Angeles, California, October 12, 2004 — Media Services announces the launch of the Showbiz Commercial Time Cards 3.0 – After a one-time employee setup, you simply enter the work hours and click one button for hours-to-gross totals. Showbiz Time Cards calculates total hours and pay for almost every union and guild contract, 6th and 7th day calculations, meal penalties, kit rentals, French hours, split days, multi-jobs, turnaround, and more.

FEATURE SET:

Pay Hours – Straight, overtime, and gold time hours/pay are automatically calculated at two separate rates of pay.

Meal Penalties - Meal Penalties are automatically calculated giving you the option to call "Grace" to recognize all the meal penalties incurred.

Multi-Job - Any employee can work up to four separate jobs in one week and your Showbiz Time Card calculator will figure it all out for you.

Turnaround / Force Call Hours - If you have to pay force calls, just tell it the force call interval, e.g., 10 hours, and the software will tell you exactly how many penalty hours you incurred.

Minimum Union Guaranteed Hours Warning - If you type in a minimum guaranteed hours, you'll receive an asterisk and a warning letting you know which days the minimum was not met.

Union Force Guaranteed Hours - With the click of a button, you can force all total work hours for each day up to the minimum guaranteed hours. E.g., on a 10 hour guarantee, where they only worked 7.5 hours, the button will change the total work hours to 10 hours for that day.

WHY SHOWBIZ TIMECARDS?

- Get both Mac & Windows
- Faster and more accurate time cards processing
- E-mail your payroll for faster check printing
