Options

Options for the players.

Name
Choose the name for each player.

Startlimit
Each player can have a different startlimit.

Active
Turns the player on and off.

Startlimit and Active only get in action after starting a new game.

Common Options

Joker
Here you can cheat a little bit by adding a Joker to the cardset. It acts like the best card you need.

Change 5 Cards
This allows to change all 5 Cards. Normaly 4 at one time.

Sort Cards
Your cards can be sorted or not.

Hold
This turns the automatic for HOLD on and off.

Automatic
The program plays alone.

Sounds
Turns the sounds on and off.

Show Chips
Turns the Chips on and off.

German / English
Choose your preferred language.

Minimum
This have every player to bet as minimum.

Maxbet
This is the maximum a player can bet or raise at one time.

Uses and saves the options.

Abort
Nothing takes change.

Multiplayeroptions

Connection
If you are the Server you have to choose "I am Server", if not choose "I am Client".

Directory
This chooses the Directory every Client must have access to for dataexchange.

Messages
This sets the time how long new messages will be shown.

Fileaccess
The slower your computer the slower must be choosen for a good continous playing. This also slows down the networktraffic.

List of bargain

One pair
Two cards of the same kind.

Two pairs
Two times two cards of the same kind.

Threeone
Three cards of the same kind.

Street
A Street is an order of cards in following numbers. The normal Street is without the Ace.

large Street
A Street with an Ace at the top.

Flush
All cards with the same color (Cross, Heard and so on).

Full House
Three of a kind and two of a kind is a Full House.

Four of a kind
You must have four cards of the same kind.

Straight Flush
A Street in one color with out an Ace.

Royal Flush
A Street in one color with Ace at the top.

If there are matching cards following takes affect:

Cards without a Joker are more relevant then with one.

The higher the cards the more they count.

Usage

Single Player
In the order of apperance the players are asked for their bet. Everyone only can choose once for raise. Hold / Raise / Quit can be used by 1, 2 and 3 on the keyboard.

After the last one has raised choose new cards by clicking on HOLD or use 1 to 5 on the keyboard for each card you want to hold. Go on with OK or the Return-Key.

Now everyone can raise up to his limit.

At the end the winner is shown and you can proceed with Continue or Return.

During the whole game the Button S turns the Sound on and off.

Multiplayer
The same as a normal game except Computerpartners. With pushing "space" you can send messages to all other players at the same time. This is not available when youre about to raise.

Within a multiplayergame the menus for Singleplayergame/ Options   and Informations are not available.

Please read "register.txt".
