P001 X-Change

\$34.95 

What would you do if you were a man who suddenly turned into a woman? It'd be a great experience, and you'd probably make some interesting observations. Now you can see how the other half lives in this excellent multi-ending bishoujo game from Peach Princess!

You are Takuya Aihara, an average junior college student with one character flaw: you're a bit of a weakling. One fateful day, while cleaning some shelves in the chemistry room, you spill a mysterious chemical on yourself. The next thing you know, you've been transformed into a girl! And so begins this hilarious erotic adventure in which poor Takuya gets some very interesting lessons in anatomy and sex education!

As a woman, Takuya discovers a new world of experiences, some welcome and others not. Can Takuya find a way back to normal, while avoiding the many temptations that come with his new female body? Can he find a way to express his feelings for Asuka, without hurting another who loves him?

Originally published by Crowd, a respected Japanese bishoujo game maker known for their excellent erotic graphics and highly developed game stories, X-Change has a compelling multi-ending premise and excellent characters. And because all erotic game graphics are completely uncensored, you get to enjoy the super CG images with nothing to get in the way! A super game in English for Windows 95/98/Me, from Peach Princess!

P002 Snow Drop

\$34.95 

Snow drop (*galanthus nivalis*) is a beautiful European herb known for bearing nodding white flowers that often appear while the snow is on the ground, despite the cold of winter around it. Filled with symbolism of "hope" and "consolation," the beautiful flower is the central theme in Snow Drop, the romantic wintertime bishoujo adventure from Peach Princess!

You are Minoru Sasazuka, age 19, a bit of a dreamer with a difficult tendency of not being able to make decisions when your heart is involved. A normal Japanese boy, trying to get into college, you've got a handsome physique that should make you popular with girls, but your occasional penchant for romanticism drives them away.

Invited on a winter dream ski trip with a group of friends, you head for a ski lodge for some winter skiing and fun. For you, it's a journey home, since you frequented this particular lodge since when you were young. With you are Kyoka, a very special childhood friend of yours, her stylish sister Keika, and your sister, Honami.

As the rich interactive story develops, you are confronted with the reality that Kyoka, your friend since childhood, loves you. You've suspected this, but haven't ever been able to face this before now, with the magical and romantic winter snow all around you. At the same time, you are strangely attracted to the quiet and romantic Shizuka-chan -- which will you choose? Although many erotic temptations are in store in the quiet mountain retreat, and there are many paths you can choose, you must be true to your heart. If you're able to choose correctly and guide the characters around you through the story, you'll be rewarded in the second half of the game, which offers more dreamy erotic interaction with these lovely characters. But if you fail, you could end up with a broken heart -- or much worse.

A fantastic and beautiful bishoujo game from Japan's Will, Snow Drop offers much to fans of erotic anime themes. In addition to an excellent original CD soundtrack, the game's thoroughly modern game engine supports full voice -- the characters speak in their beautiful Japanese voices, while the English appears on-screen. For Windows 95/98/Me.

P003 Tokimeki Check-in!

\$49.95!

Traditional Japanese inns, known as "ryokan," are wonderful places to enjoy the calm wind through the Japanese pines, bathe in traditional Japanese hot springs, and find the true spirit of the Japanese soul. It's also a great place to find romance and naughty fun!

You are Takayuki Yamano, the reluctant operator of Yamano Inn, which you took over from your parents after graduating from college. An average Japanese youth who's more than a little bit of a slacker, you wanted more than anything to get away from the inn where you grew up by trying to get a job in Tokyo -- but here you are. It's hard work, but you don't mind being around your childhood friend Ayumi and the spunky but cute Makoto, who work with you in the inn.

You don't have time for moaning, as every day is a busy one at Yamano Inn. This morning, three lovely guests arrive from Tokyo. Nanami is the giggly type, and Kumi is young and curious. The tomboyish Natsuki is hard to be around, but with any luck you can tame her, and maybe get lucky in the deal.

Having so many beautiful girls around you no doubt leads to some sexual excitement, and you never were able to resist the urge to peek at heavenly bodies enjoying a bath in the hot springs. But when the lovely angels around you get in the mood, it might be time to make some beautiful music.

A fantastic and highly acclaimed bishoujo adventure game from Crowd, Tokimeki Check-in! is a multi-ending game with ten different lovely girls, and ten different endings to challenge. A massive 2 CD-ROM game, Tokimeki Check-in! features excellent music in CD audio and MIDI format, with full voice, using the original high-quality Japanese voice actresses! With some of the most beautiful computer graphics ever seen, Tokimeki Check-in! is 100% uncensored. For Windows 95/98/Me.

P004 Little My Maid

\$39.95

You are Kenji Kamogawa, age 19. You were one of the brightest students in high school, considered by your teachers and parents to be a shoo-in for the best four-year universities. Unfortunately, your dreams of university came crashing to an end when you failed your entrance exams -- and lost your beloved Yukari at the same time. Ashamed of your lot, you wander to the seaside, where you enjoyed fun memories of your last summer with your lover.

Suddenly, you hear a sweet voice, crying out for help. It's a beautiful woman -- a young maid-in-training -- about to be subjected to a terrible fate at the hands of a band of hoodlums. Thinking fast, you are able to save her virtue.

"My name is Mari," she says, through her tears. "I work as a maid at a nearby mansion. Please...let me repay your kindness."

She takes you to the house she works at, Sea Dragon Mansion, which overlooks the mist-shrouded seaside. There you encounter her two sisters, also maids-in-training: the proud and capable Hina and the delightfully cute Mayu-chan. You also meet the mysterious mistress of the mansion, Hime, and the cold trainer-of-maids, Aya, who explains your status in the Mansion: you are the guest, and that means that the three maids will strive for your every pleasure. Ring one of the three bells to call any one of the three maids, and they will come and serve you in any way you please.

A wonderful example of Japan's excellent bishoujo game world at its finest, Little My Maid offers a wonderful story with multiple endings and fantastic replay value. A fully interactive "variety adventure game," the game supports character points -- Love, Trust and Personal Strength -- which rise and fall as you interact with the rich cast of characters in this very special world. Features full Japanese voice, with accurate face animation. 100% uncensored, for Windows 95/98/Me.
