By Grifter

## Welcome To Wild©ÄT-şçr|pt 2.0

Well, I decided to start another script called Wild©ÄT-şçr|pt 2.0. In this script I have fixed bugs and added a bunch of other crap to make this script alright. Now i'm not sayin this is gonna be the best script your gonna see im just sayin its gonna be alright. Well enjoy my script and have fun!

## Installation

- Unzip wildcat2.zip into your mIRC directory.
- Start up mIRC.
- Go to the pull down menu called TOOLS.
- Load the script in pop-ups and make sure to check "Listening" wherever it isn't checked
- Then go to the pull down menu TOOLS again.
- Go to remote and load the script there and make sure to check "Listening" wherever it isn't checked
- Connect to a server and enjoy!

## Files included in Wild©ÄT-şçr|pt 2.0 zip:

- Wildcat2.ini
  - Wildcat2.doc
  - Wildcat2.txt - For people who don't have WordPad
  - kicks.txt
- If any of these things are missing from the zip, someone has tampered the script and have taken them out. Please e-mail me at dagrifter@hotmail.com and i'll send you the full verison of Wild©ÄT-şçr|pt 2.0 if you want!

## What's in the Wild©ÄT-şçr|pt 2.0 script:

- New away (Thanks AcidTrip)
- New "Talk Smack" sayings
- New "Say" command that let's you say stuff in color or in color with a colored background
- Added NuKe Server to "Servers of IRC"
- Cool sayings after you kick somebody from a channel
- Flooding
- Swear Kick
- Color Chart
- OP and Normal Commands
- DALnet Services

## Thanks Goes Out To:

- AcidTrip (For getting me started in scripting and telling me what sucks and whats cool)
- Blindside (My brother for putting some cool stuff into this script)
- My parents (For giving me Internet access!!!)
