Specifications and Technical Data

ADVANTAGES OF SURE-LOC ALUMINUM EDGING

Landscape Architects have realized the excellent product performance benefits of Aluminum Edging. Sure-loc Aluminum Edging makes the decision of which brand of Aluminum Edging to specify easy. Sure-loc is a superior product at a far more affordable price. Most Landscape projects have a budget to work within and a goal of using the best quality products affordable. Sure-loc is sold directly to the Landscape Contractor (or Landscape Architect), there are no middle man mark-ups, saving you upwards of 30%. Allow us to show you the difference by quoting your next project that requires edging. When specifying or inquiring about our products please use our toll free number 1-800-SURE-LOC (1-800-787-3562).

PRODUCT APPLICATIONS

1/8" x 4" (3.2mm x 102mm) - Used primarily for residential or light commercial applications. Used as a planting bed edging, and as a paver restraint for patios or walkways. Works best where flowing curves are needed.

3/16" x 4" (3.2mm x 140mm) - Used primarily for commercial, industrial, and institutional facilities. Used for edging of planting beds, a paver restraint, walking trails, running tracks, asphalt borders, and for maintenance strips. Works well for both long straight runs and curves.

1/8" x 5.5" (4.8mm x 102mm) - Used primarily for residential or light commercial applications where the planting beds may require the additional depth.

3/16" x 5.5" (4.8mm x 140mm) - Used primarily for commercial, industrial, and institutional facilities where the additional depth and strength of a heavy duty product is needed. Excellent for long straight runs. This product is extremely durable yet can form curves with ease.

FINISHES

Sure-loc Aluminum is available in a variety of finishes and can be special ordered in almost any color or finish. If you choose to use a colored finish we strongly recommend using an anodized versus a painted finish, the anodized finish offers far greater durability.

STANDARD FINISHES

Mill Finish (Natural Aluminum)

Anodized Finishes: Black, Green, Bronze

Other finishes available by request

ALUMINUM ALLOY

Edging - Extruded 6063 T6 Hardness

Stakes - Extruded 6061 T6 Hardness

STAKES

1.5" x 11.5" (38mm x 292mm)

1.5" x 18" (38mm x 457mm)

SPECIFIERS CAUTION

Use caution as to which brand you specify. Sure-loc offers superior function and will cost far less than other aluminum edgings. To take advantage of the upwards of 30% savings be sure to include our toll free number 1-800-SURE-LOC. Sure-loc Aluminum Edging provides the proven performance of Aluminum at a price you can afford. Let us quote you an actual delivered price not a "suggest wholesale".

Note: A competitor is labeling a 1/8" x 4" product that measures 1/8" only at the very top edge. Sure-loc measures a full 1/8" at six different points. Please take caution when accepting another as equal.
