

MR-MANUFACTURER

USG Action Electronic Product Information System is provided by United States Gypsum Company and USG Interiors, Inc., leaders in construction materials and building systems for 90 years.

PP-PRODUCT PRESENTATION

The first of its kind in the construction industry, USG Action is an exclusive new product information system made available on CD-ROM disc. This "electronic toolbox" presents product information, construction details, specifications and other valuable data on a wide range of U.S. Gypsum Company and USG Interiors products and systems. Intended for use by architects, designers and other industry professionals, the system provides up-to-date information quickly, effectively and at low cost. USG Action runs in the Microsoft® Windows™ environment on an IBM™ or IBM-compatible computer system, 386 or better with at least 4 MB RAM and a CD-ROM reader.

Features

The system is easy to use. Graphic icons on the computer screen allow the user to access a variety of important information resources:

THESOURCE -- A complete electronic version of the *Gypsum Construction Handbook*, searchable by key word or table of contents.

CADDTOOLS -- Hundreds of AutoCAD-compatible drawings of systems.

BOOKSHELF -- Text of *Form&Function* technical articles, white papers, the complete AWCI Construction Tolerances Manual and other valuable documents.

BACKTALK -- Electronic message and inquiry service (future).

NEWSLINK -- An electronic newsletter features new USG products and systems (future).

ADDRESSBOOK -- Directory of sales and technical contacts at USG.

SPECLINK -- Recommended specifications for products and systems.

CODETEXT -- Abstracts of text from our active model code reports.

FIRETEST -- Searchable database of fire-resistance rated assemblies and UL drawings.

SOUNDTEST -- Searchable database of sound rated assemblies, with actual sound transmission loss curves.

DESIGNTOOLS -- Easy-to-use design programs that aid in units conversion, stud framing selection, ceiling grid installation and more.

SAFETYDATA -- Material safety data sheets for USG products.

U.S. GYPSUM & USG INTERIORS CATALOGS -- Electronic catalogs of all products with full text and graphics.

Availability

USG Action is available for the nominal one-time licensing and registration fee of \$75.00. Registered users will receive information on enhancements and future releases. To obtain a copy, send request on your company letterhead, with a check made payable to U.S. Gypsum Company, to Dept. 147-3, United States Gypsum Company, P.O. Box 806278, Chicago, IL 60680-4124.
