

<b>MIRADRAIN SITE-SPECIFIC GEOTEXTILE SELECTION GUIDE*</b>										
<i>Miradrain products are available with a wide range of woven and nonwoven fabrics.</i>										
<i>Consult this selection guide before specifying a Miradrain product.</i>										
<b>SOILS</b>	<b>COARSE SAND</b>	<b>SAND</b>	<b>SILTY SAND</b>	<b>CLAYEY SAND</b>	<b>SANDY SILT</b>	<b>SILT</b>	<b>CLAYEY SILT</b>	<b>SANDY CLAY</b>	<b>SILTY CLAY</b>	<b>CLAY</b>
<b>WOVEN FABRIC</b>					SPECIFIC TESTING REQUIRED **					
<b>FILTERWEAVE HP500</b>	<b>X</b>									
<b>FILTERWEAVE 40/10</b>		<b>X</b>	<b>X</b>							
<b>FILTERWEAVE 70/20</b>				<b>X</b>						
<b>NONWOVEN FABRIC</b>										
<b>MIRAFI 180N</b>									<b>X</b>	<b>X</b>

\* This table is a general guide only. Site-specific soils information is needed to confirm the selection of the appropriate geotextile.

\*\* Silty soils are inherently unstable and require further testing to select appropriate filtration solutions.
