## **SPECRAIL INDUSTRIAL GRADE FENCE SYSTEM**

### **PP-PRODUCT PRESENTATION**

#### **SYSTEM FEATURES**

The Specrail Industrial (SI) ornamental aluminum fencing system combines its heaviest gauge aluminum extrusions for high visibility and substantial appearance, with aesthetic excellence. The SI system incorporates a 1" x 1" picket with 3 or 4 1-5/8" x 1-5/8" x 1-5/8" rails (stringers) and are fastened with stainless steel TEK screws. The finished product will beautify property lines while creating a deterrent to illegal entry.

The SI system is available in eight standard styles and six standard colors. Custom options are available in color and size which leave the architect/contractor the freedom to apply design flair to this high strength fencing alternative for industrial applications.

### **UA-USES, APPLICATIONS**

#### **APPLICATIONS**

Specifications for the Specrail Industrial fencing system are most commonly applied to high traffic public areas, industrial complexes, and commercial areas for its high strength and visibility. Other applications may include municipal buildings, schools, churches or apartment complexes.

### **TS-TECHNICAL SUPPORT**

#### **TECHNICAL/DESIGN ASSISTANCE**

Specrail's staff includes an engineering and drafting department to assist contractors/architects with any design question that may arise in the specification of the Specrail systems. Specrail prides itself in fast dependable customer service. Specrail will expeditiously deliver any design assistance necessary to make your job a success.

### **CC-CODES, CERTIFICATION**

#### **WARRANTY**

Specrail issues a lifetime limited warranty with every fence system sold. Specrail warrants that their fence will remain serviceable and structurally sound for lifetime. In addition, Specrail guarantees its electrostatically applied organically painted fence for lifetime from the date of purchase. Specrail guarantees the finish will not crack, check, or peel (lose adhesion).

The aforementioned warranty denotes Specrail's confidence in the longevity of its fencing systems. Combined superior construction with inherent material capabilities of aluminum, stainless steel and thermoset acrylic enamel afford Specrail this opportunity to serve as a guarantor of its products.

## **MF-MATERIALS, FINISHES**

### **FACTORY APPLIED COATING**

All Specrail fence systems are finished in Polycolor, our premium High Solids Acrylic coating. Polycolor is designed for outstanding durability, and hardness. Polycolor meets AAMA 603.8 specifications. Specrail offers its fence system in six (6) standard colors, with optional custom capabilities for color matching.

Specrail finishes all of its fencing and hardware products in compliance with the most stringent codes of the Environmental Protection Agency. Specrail employs the finest known methods in the industry to pre-treat, and finish its aluminum fencing under its codes. The finished product is environmentally safe and recyclable.

Specrail is a charter member of ASCA, the Architectural Spray Coaters Association, and is committed to the highest standards of metal finishing operations.

## **CP-COMPONENTS, PARTS**

### **GATES & HARDWARE**

Specrail gates are available for all Specrail Grade Fencing Systems. Gates will conform in style to fence sections. Specrail utilizes matching material to the fencing system in fabrication of gates, insuring conformity in style. Corner supports are incorporated to add rigidity to every Specrail gate.

Walk gates, cantilever gates and double drive gates are available in varied widths to accommodate exacting needs for gate application. All Specrail hardware is fabricated of aluminum alloy components and finished to match fencing and gates. All applicable self closing hardware is supplied with each gate.

## **CP-COMPONENTS, PARTS**

### **ACCESSORIES**

Specrail stocks a complete line of decorative accessories to add design flair to any Specrail grade fence. Among accessories available are finials in two styles for installation on picket points. Ball caps are available as an alternative to the traditional post caps. Finials & ball caps are supplied to match fence color, or in a bright gold paint.

Scrolls of varying design and height can also be added by simple assembly to mid section pickets. Initials are available for fence enhancement as well. Like the finials, the accessories finish will match the fence, or is available in Gold.

All accessories are aluminum cast pieces and carry the same warranty against corrosion as do all Specrail products. Some of Specrail's decorative and functional accessories are outlined on page 7 of Sweet's printed catalog 02830/SPE. Please call Specrail customer service for a more complete listing of available castings and custom items.
