

Ironsmith, the leading company in tree grates, offers more tree grate choices than any other company in the world. We are known for offering the widest selection and the most innovative designs. All tree grates are designed to meet the Americans with Disabilities Act and are made from 100% recycled metals.

The Starbust family is the most complete of any kind, offering continuity in design in just about every size from 36" to 10 feet, plus various rectangular configurations.

For those extra special projects, Ironsmith offers custom work including original designs and special sizes.

To complement the widest selection of tree grates, Ironsmith offers the most finish options including enamel and polyurethane in any dark color, Ironsmith's Ironclad rust resistant finish, and baked powder coats on aluminum.

In addition to tree grates we also offer tree guards, trench grating, and bollards in the same finish options.

For additional information, please see Sweet's printed catalog 02980/IRO or call us at (800) 338-4766.
