

AMICO®

VINYL STUCCO ACCESSORY PRODUCTS

STUCCO REVEALS (with removable masking caps)

Stucco Reveals are used to provide architectural relief in stucco walls. This product creates breaks in stucco to architecturally pleasing walls. This does not replace the expansion joints to allow for movement.

STUCCO “F” CHANNEL REVEALS

“F” Channel Reveals - Form 1/2", 3/4" and 1" reveals in wall and ceiling areas. Designed to relieve stress where excessive movement might be expected.

EXPANSION SHADOW REVEALS

Shadow Reveals - Form 1/2", 3/4" and 1" reveals in wall and ceiling areas. Designed to relieve stress where excessive movement might be expected.

EXPANSION/CONTROL JOINT

“M” TYPE with REMOVABLE TAPE – AMICO “M” Type Expansion/Control Joint will offer ample movement to avoid most structure cracks due to expansion and contraction. Note removable tape has been provided to clean the joint after plastering.

EXPANSION JOINT (with removable tape)

Improved version of the “M” type expansion by providing mechanical keying to stucco membrane. Ideal for one coat systems.

OUTSIDE CORNER EXPANSION JOINT

Outside Corner Expansion Joint - Designed to relieve stress in outside corners where excessive movement might occur and result in cracking.

INSIDE CORNER EXPANSION JOINT

Inside Corner Expansion Joint - Designed to relieve stress in wall and ceiling inside corners where excessive movement might occur and result in cracking.
