

Fire-Rated Gypsum Wallboard

By supplementing gypsum wallboard's natural fire resistance with glass fibers and other additives, Temple-Inland meets or exceeds fire code standards developed for six product categories.

Fire-Rated Gypsum Wallboard is available tapered 1/2" and 5/8" thick, 4 feet wide by 8 to 14 feet long.

Meets ASTM C36 and Federal Specification SS-L-30d for Type III, Grade X (5/8"), T and TG-C (1/2" and 5/8"), Class 1. Application standards include ASTM C840 and GA216.

Stretch 54 (Fire-Rated) Gypsum Wallboard is available tapered 1/2" and 5/8" thick, 54 inches wide by 10 to 14 feet long.

Meets ASTM C36 and Federal Specification SS-L-30d for Type III, Grade X (5/8"), T and TG-C (1/2" and 5/8"), Class 1. Application standards include ASTM C840 and GA216.

NOTE: Type X represents Temple-Inland's original fire-rated material. Types T & TG-C are premium formulations.
