

Gypsum Sheathing

Combining a treated gypsum core and a treated water-repellent face, Temple-Inland Gypsum Sheathing is ideal for exterior wall construction, providing a perfect base for a variety of finishes.

Regular Gypsum Sheathing is available with square edges 1/2" thick, 4 feet wide by 8 feet long. Tongue and groove edges are available 1/2" thick, 2 feet wide by 8 feet long.

*Meets ASTM C79 and Federal Specification SS-L-30d for Type II, Grade W, Class 2.
Application standards include GA253.*

Fire-Rated Gypsum Sheathing is available with square edges 5/8" thick, 4 feet wide by 8 feet long. Tongue and groove edges are available 5/8" thick, 2 feet wide by 8 feet long.

Meets ASTM C79 and Federal Specification SS-L-30d for Type II, Grade X, T and TG-C, Class 2. Application standards include ASTM C840 and GA253.

NOTE: Type X represents Temple-Inland's original fire-rated material. Types T & TG-C are premium formulations.
