CTC Edge

Anodized Aluminum in 3 Finishes

- Clear, Bronze and Brass

Protects Against Tile Breakage

- Large openings in leg allow for proper bond.
- Angle of extrusion distributes force through body of tile.

Advantages

- Tile edges are protected
- Single piece extrusion will not bend
- Bonding is ensured with perforations in leg

Problems without CTC products

- Chipped tile at transitions
- Two piece zinc edge will bend
- Inadequate bond of tile to substrate

Warranty

Ceramic Tool Company (CTC) warrants our products to be of good quality and manufactured to meet ANSI standards. Satisfactory results depend not only upon the quality of our products but also on many factors beyond our control. The user shall rely on his own information and tests to determine suitability of the product for the intended use, and the user assumes all risk and liability resulting from his use of this product. CTC's sole liability is to replace the product or refund the purchase price if the product is determined to be defective.
