

ELASTI-PLUS®

Photo Captions:

- A.** Two-part polyurethane top coat
 - excellent abrasion resistance
 - low maintenance coating
- B.** Rubber basemat
 - consistent system thickness for controlled performance
 - excellent force reduction
 - comes in different thickness and density tailored to your needs
- C.** Dual-durometer system for good blend of shock absorbency, ball rebound and durability
- D.** 2 polyurethane seal coats
- E.** 2mm wear layer
 - durable two-component polyurethane
 - two-stage, dual durometer system for harder wear layer distributing point load over cushion below

Accommodating basketball to ballet

This multipurpose, economical sports floor is durable, seamless and easy to maintain. The three floor designs include a consistent balance between good shock absorbency and fast play, excellent ball rebound and improved force reduction. ElastiPlus® also has a high deformation recovery from heavy loads, absorbs sound, minimizes injuries and helps prevent fatigue. It combines high resiliency and variable thicknesses using prefabricated roll goods and Connor•AGA's quality controlled polyurethanes that stay the same from batch to batch.

The wear-resistant ElastiPlus® system is the preferred choice among athletes, coaches, trainers, facility directors and maintenance supervisors.
