

Flooring Solution - Building Type - Government

Let Azrock's Integrated Commercial Flooring System solve your flooring needs.

The floors listed in the table in this screen are the most frequently specified for your project within a Government type building according to application and budget range.

While these options are based on the building type and application, keep in mind that VCT is an option for almost all applications. The products are recommended to perform well based on building type and application and are based on approximate budget ranges and will meet ASTM and appropriate U.S. and Canadian federal specifications. Each recommended product is also available in a wide range of colors and patterns.

For more comprehensive product information, visit our Web site at **www.domco.com**

For the Azrock Flooring Consultant in your area, call our **Hotline: 1-800-877-8453** between the hours of 8am and 5pm CST. After hours, just leave us a voice message and we'll get back to you the next business day. If you are calling from outside the United States or Canada, or need technical assistance, call 1-713-869-5811.

For product samples, fill out the Product Sample Order Form in the "Samples" section of our Web site to E-mail your order directly to us or call **1-800-558-2240**. If you are calling from outside the United States or Canada, call (205) 766-0234 ext. 197.
