

BioSpec™ Homogeneous Sheet Vinyl

BioSpec homogeneous sheet vinyl features solid vinyl composition and through-chip construction. Even under the heaviest rolling loads and highest traffic, it won't split, crack or delaminate. Plus, BioSpec features exceptional resistance to stains, cuts and gouges.

The 6 exclusive Low Contrast patterns of BioSpec also make it easy to spot dropped materials for fast clean up – like surgical inventory in medical environments. BioSpec's 24 additional colors were designed to match our Fine Fields inlaid sheet vinyl, allowing you to create a continuous, coordinated look throughout the building.
