

Welcome to the world of Mercer -- where quality, engineering and aesthetics are one step ahead of the times.

Since 1958, Mercer has provided specifiers quality vinyl and rubber wall base, mouldings, stair treads, rubber flooring and accessories featuring full assurance of proven service and performance.

All extruded product materials are of 100% first-quality, virgin vinyl or rubber thermoplastic compounds. Each product meets or exceeds industry standards to bring you the newest in product innovation, making Mercer's products extremely durable, rich in color and resistant to scuffing and scratching.

Continuous research is what gives Mercer the leading edge, which is essential for today's environmental concerns. Every product is totally inert and free of heavy metals. Mercer's products are recycled all throughout the manufacturing process. In addition, Mercer re-circulates its water, uses no toxic chemicals and recycles all packaging, paper and unused raw materials. All products are shipped in recyclable containers.

Uni-Color® System

To simplify your job as a specifier, Mercer created the Uni-Color System designed to coordinate colors offered in each product line -- highlighted in each product's spread.

Each traditional product line of vinyl and rubber wall base has the same 38 Uni-Color System Colors available throughout (Mercer's unique, ultra-high gloss Mirror-Finish® line offers 16 of 38 Uni-Color System Colors plus two specialty colors). Most mouldings and trims are offered in 16 of the 38 Uni-Color System Colors. All vinyl treads and nosings color-coordinate to 12 of the 38 Uni-Color System Colors.

This color system was developed to inspire a new world of creation and coordination. Uni-Color assists with current color trends and combinations to serve as a source of inspiration representing the widest range of flooring accessory products.

Long-lasting color. Fresh new colors. Natural earthtones, everlasting traditionals, beautiful neutrals -- Mercer will take you anywhere your imagination leads.

CUSTOM COLOR SERVICE

In addition to the wide color line which Mercer offers as standard colors, our modern laboratories are equipped to match your custom color requirements. To obtain custom color information and minimum quantity requirements, call Mercer Products Co., Inc., (800) 447-8442 or FAX (800) 832-5398.

INSTALLATION GUIDE

Mercer products must be installed over a clean, dry surface using Mercer adhesives. For cove base and corners, use Mercer Wall Base Adhesive. Mouldings and stair treads, use Mercer Flooring and Stair Tread Adhesive. For nosings, use Mercer Epoxy Stair Nose Caulk and Stair Repair. For rubber flooring, use Mercer Rubber Epoxy Floor Tile Adhesive or Mercer Flooring

and Stair Tread Adhesive. Refer to Mercer's website @ www.mercerproducts.com or request by calling (800) 447-8442.

MAINTENANCE

Mercer vinyl and rubber products require minimal maintenance. However, with normal use, some cleaning may be required. Mercer products may be cleaned using neutral flooring detergents. Mix detergent per manufacturer's specifications and apply using a mop or cloth. Remove or rinse as recommended by detergent manufacturer.

GUIDE SPECIFICATIONS

Full guide specifications developed in 3-part CSI format. Available upon request or see Sweet's, ARCAT Specdisk, or Mercer website (www.mercerproducts.com).

PRODUCT MANUAL (ARCHITECTURAL BINDER)

Includes product overviews, technical information, code compliance information, maintenance information, color charts, and guide/short form 3-part CSI specifications.

RECYCLING

Continuous research is what gives Mercer the leading edge which is essential for today's environmental concerns. Every product is totally inert and free of heavy metals. Mercer's products are recycled all throughout the manufacturing process. In addition, Mercer re-circulates its water, uses no toxic chemicals and recycles all packaging, paper and unused raw materials. All products are shipped in recyclable containers.

ADHESIVES

Mercer adhesives has been specially formulated for compatibility with Mercer products, and must be used for warranty to apply. Our premium quality adhesives work easily and bond quickly, yet are slow enough to permit positioning without shoring. Adhesives are non-flammable and environmentally friendly.
