**Retirement Center**  
**Factory**

Whether your needs are for functional design, increased safety, noise reduction, reduced employee fatigue, “drop damage” coverage, or simply a flooring that will last for years, Tuflex Rubber Flooring has got you covered. Tuflex has been known to last for 30 years given the proper maintenance. Employees appreciate the anti-fatigue qualities inherent in the flooring, and factory workers enjoy lower “drop damage” and increased safety. Tuflex has shown significant growth in government and military installations where specifiers have discovered the high quality recycled rubber tiles are functional in a variety of installations, at a reasonable price.

**Representative Installations (this is only a partial listing, you may obtain an expanded local list from the Tuflex representative in your area.)** Charleston Naval Air Station, CIA Headquarters - McLean, Department of Revenue, Elmendorf A.F.B., Federal Aviation Administration, U.
