MR-MANUFACTURER - USG Interiors, Inc.

PP-PRODUCT PRESENTATION - DONN® Marine Wall System
- Lower cost than fixed wall systems
- Versatility
- Durability
- Rust-resistance
- Smooth surface---no protruding batten strips
- Relocatability
- Superior STC performance
- Superior fire ratings/the best in the industry
- Wiring can run vertically or horizontally in the wall
- Partitions frame top, side, intersecting and full-height glazing
- Features--
- Cavity depth: 2"
- Wall thickness: 3 - 3/4"
- STC range: 38-50
- Fire rating: Class A, vinyl

UA-USES, APPLICATIONS
- Marine bulkheads

AI-ASSEMBLY, INSTALLATION
- Only five components required for basic wall system
- Fast, easy progressive installation

MF-MATERIALS, FINISHES
Components -
- Panels
 Metal-Faced Joiner Panels (24-ga. steel panel over 1/2" thick gypsum core, 24" or 30" wide, square edge)
 Metal-Faced "C" Panels for overhead use (24-ga. steel panel over 1/2" thick gypsum core, 30" x 30")
- Studs
Steel (24-ga. galvanized steel, 2" depth, holes punched for utility passage)
- Overhead Track
Steel (3" or 3-3/8" width, 1-3/8" return)
- Deck Track
Steel (2" width, 1" return)
- Spacer Channels (Optional)
Steel (24" or 30" lengths)
Finishes -
- 9 standard baked enamel colors
- 14 laminated vinyl finishes including solids, textures and woodgrains; also custom colors
- Porcelain enamel
- Chalkboard
- Stainless steel
- Optional flush outside corners
- Optional trimless inside corners
- Call Customer Relations at 1-800-950-3839 for samples
Accessories -

- Door Frames
Steel (18-ga., non-handed, reversible)
- Glazing
Steel (throated for installation without regard to module)
Floor Base
Steel snap-on base
Vinyl or rubber base by others
Vinyl
Steel

CS-COATINGS, SURFACING
- Overhead track, deck track, door frames, glazing and trim - painted
- Vinyl floor base and trim - PVC
