VoiceGuide FaxBack Demo Index

It is usually a good idea to provide an index file which the caller can download to see what other files are availaible on the system, and which indexes must the caller use to download them.

In the welcoming message the caller might be informed of what Fax-ID to enter in order to receive the index file.

The information files availailable from this Fax-Back service are:

Index	Description of the Fax
000	Index File (the one you are reading right now)
001	Introduction to VoiceGuide
002	What do you need to run VoiceGuide (System Requirements)
003	How to order VoiceGuide.
