

Here's an example of the virtual font phvr, which should be displayed using Helvetica. We don't have Helvetica and substituting Homerton.Medium doesn't work too well.

Here is some text typeset in Helvetica at 12pt.

Here is some text in Helvetica 20pt.

Let's try out some accents: ò ó ö õ õ õ ö ö ø oo 9 9 9

Let's try some symbols: œ Œ æ Æ å Å ø Ø ß ÿ ;

Let's try some ligatures: huff files flood difficulty piffle
