

NON DIRECTIONAL BEACONS IN THE BRITISH ISLES

This is a list of Non Directional Beacons, which are currently active in the countries of the United Kingdom, its Dependencies, and the Republic of Ireland as of early 2005. This list is purely for the use of radio enthusiasts, and it goes without saying that it should not be used for navigation or any other purposes. As far as I'm aware it is reasonably accurate as of March 2005, but any updates, additions, deletions or corrections would be greatly appreciated, and can be sent to: webmaster@beaconworld.org.uk The list is sorted by country order in the first section, callsign order in the second, and frequency order in the final section.

Date last updated: 29th of March 2005

Abbreviations:

H24 Operates 24 Hours
HV Hours variable
HU Hours Unknown
OFF: Offset (pitch)

Beacons shown with ICAO codes "EG" are usually 'waypoint' beacons, which often run much higher power levels than many airfield beacons
