

Ability Office 98 User's Guide

This help guide is arranged in the same way as a printed manual would be arranged. You can start at any topic and browse forward or backward through the pages. ([See how?](#))

For a general introduction to Ability and some of the basic windows techniques such as using the Open dialog and making selections, see:

[Getting started](#)

For a description on individual applications, see one of the following:

[Write](#)

[Spreadsheet](#)

[Database](#)

[Draw](#)

[Launcher](#)

To see how all the Ability applications can be made to work together, see:

[Integration in Ability](#)
