Accessory Mate

Version 3.0
Copyright (c) 1991, Mini-Tech Systems

GENERAL: Accessory Mate is a program that allows you to have instant access to all of the Microsoft Windows programs that were shipped with Windows. You can now Launch these programs from a single Icon, instead of a slew of Icons cluttering and hogging your Valuable Desktop space. Besides it's alot easier to find the program from a single Icon rather than hunting through the slew that Windows came with. Also, you will see a great speed improvement when programs are launched from Accessory Mate.

INSTALLATION: Copy the ACCMATE.exe and the VBRUN100.dll files into your Windows directory. Load Windows and add the ACCMATE.exe program to a group.

REQUIREMENTS: Microsoft Windows 3.0 or 3.1 running on an 80286 or higher PC.

REGISTER: Accessory Mate is distributed by Mini-Tech Systems. Anyone who uses this product must send $20.00 (U.S. Funds) to Mini-Tech Systems **for each PC that runs Accessory Mate**. When you register, we will send you one *Licensed/Serialized* copy of Accessory Mate for each PC that you have paid for.

Registration entitles the user to run Accessory Mate on a single computer. Anyone wishing to use the program on more than one computer must register the program for use on each computer. Accessory Mate is protected by U.S. and International Copyright Laws.

REGISTRATION: To register Accessory Mate, send $20.00 (U.S. Funds) for each PC that you register to:

Mini-Tech Systems
3055 Adams Avenue
Ogden, Utah 84403

IF YOU REGISTER 50 or MORE...

ACCESSORY MATE WILL COST YOU ONLY $15.00

PER COMPUTER!

Be sure to include your name and address along with the Version Number (3.0) for Accessory Mate.
