

## CT-Shell v2.20 Registration and Order Form

Thank you for evaluating CT-Shell v2.20 and deciding to register it. Registration brings you these benefits:

- o toll-free telephone support
- o the right to continue using CT beyond your 30-day evaluation
- o professionally printed and bound 100-page+ user's manual
- o removal of the "Unregistered" caption
- o newest version at the time your order is shipped

With your disks you will receive a SoftKey file that will unlock future versions of CT-Shell that you might download from a service or a BBS. Thus, software updates are free for the downloading, and registered users can purchase new manuals at any time to stay up-to-date with the documentation.

Please provide us with the information we need to keep track of your registration, by filling in this form and printing a copy. If you don't have a printer, please handwrite the same information on a normal size sheet of paper. We want to make sure you are included whenever we notify our registered users of product updates or other news.

Please mail this form with your payment to:

Computer Training  
13215 NE 123 ST, Ste. 114  
Kirkland, WA 98034-8032

Price Schedule:

<u>Item Description</u>	<u>Cost Each</u>	<u>Qty</u>
CT-Shell v2.20, with SoftKey and printed manual _____ 3.5" _____ 5.25" diskettes	\$35	_____
User manual only - for sale ONLY to registered users	15	_____
Total amount enclosed	\$	_____

Note that payment must be in US funds, drawn on a US or Canadian Bank. Please check your preference for disk size. If you do not specify the size you want, we will send 3.5" disks, as they are more reliable and they ship better.

If you need *five or more licenses* (please see license requirement in front of manual), please contact us in advance about a very attractive site license. We can provide you with a master disk and an unbound original for manuals, which you can copy up to the number of licenses you purchase.
