

## **Association of Shareware Professionals**

DiskMaster Software is a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the Shareware principle works for you. If you are unable to resolve a Shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442 or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.

## **The Shareware Concept**

DiskMan For Windows is a shareware program which allows the user to try out a program before paying. Since software is a very personal choice, shareware allows you to try before you buy. If you do like DiskMan, or any piece of shareware, please send the registration fee. This allows the shareware method of distribution to continue, and the authors to continue improving, updating, and supporting their products. Whether or not you register DiskMan, please feel free to share it with your friends.

For a DiskMan order form, see [dmorder.wri](#).

## **Registration**

When you register DiskMan, you will receive the following:

- Label Start-Up Kit (Specify type on [dmorder.wri](#))
- Updates mailed to you for 1 year
- Lifetime registration to DiskMan for Windows, V 2.0 and all updates
- Printed Manual
- 100 icons to be printed on your labels
- Technical Support for 3 months, including label customization
- Disk of Windows Games by Epic MegaGames  
(If you like these games, you may register them separately with Epic MegaGames)

## **Installation**

If you are running Windows 3.1, you may delete the `Commdlg.dll` file which came with DiskMan.
