Advantages of Windows drivers
*   Print color graphics
*   Print screen fonts
*   Provide one driver for multiple applications
*   Allow you to view and change print queues

Disadvantages of Windows drivers
*   Contain limited paper sizes
*   Allow only one orientation per print job
*   Are unable to collate multiple pages
*   Support only 160 printers
*   Use one paper source per job (can only use tray 1 for the job or tray 2 for the entire job)
*   Cannot add or create forms
*   Print slower

Advantages of WPWIN's drivers
*   Support more than 900 printers
*   Are fully 5.1 compatible
*   Allow more than one orientation per document (landscape and portrait)
*   Can pull from different bins in the same print job
*   Can customize
*   Print faster
*   Can add and create forms

Disadvantages of WPWIN's drivers
*   Cannot print color graphics except with color PostScript printers
*   Can only be used by WordPerfect programs
