Section 9 ----- Vendor Information

Section 1 ----- Getting Started

When you first start FontMe!, you must select a font name from either list #1 or list #2. Once you have selected a font name the font will appear in the box at the bottom of the screen (Example font list #1 or 2). You can now change the size and/or style for the fonts you have selected. If for example, you select Times in list 1 and you find a font that look like Times

but is slanted, select that font in list 2, then select Italic for list #1. If they both look the same you really don't need the second font (unless you really like collecting fonts). This is the whole idea behind FontMe!. You can now compare fonts easily and remove the fonts that are similar or duplications with different names. At the right hand side of the screen in the title box you will find a count of the fonts in list 1 and list 2. This count may vary if you select printer fonts from the options menu (explained below).

General Interest (for those that don't know)

Websters 1972 - font - 'a complete assortment of type in one size and style'

Section 2 ----- Options Menu

Show List #2 ----- Screen

This is the default for the program. Both lists will have the screen fonts shown when the program first starts. These are the fonts Windows recognizes as being installed in your system and usable for display.

Show List #2 ----- Printer

This list is the fonts that Windows recognizes as being printable fonts. TrueType, ATM, MoreFonts and Others that install themselves or will allow you to install them in Windows are usually recognizes as both screen and printer fonts. If you are on an Apple network the printer fonts are the ones recognized by the Apple printer.

Show List #2 ----- Saved

This list is the fonts that you have saved from a previous visit to FontMe!. This can be useful if you are changing fonts or collecting fonts. The date the font file was saved will appear on the top of the screen. This is a standard text file and can be viewed by any text editor (select *.*).

Print ----- Font #1 Only

This will print the font which is showing in list #1. Print format example below,

Printed on 00-00-0000
using FontMe! by Fischer Grafix & Software
Font Name - 14 point

Normal

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Italic

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&(){}<>?*

Ext. Char. Set

The printable extended character set for this font will print here.

Print ----- Font #2 Only

This will print the font which is showing in list #2. This will print in the same format as the above example. Font #1 and Font #2 Only print is printed in 14 point size only. This is a good example of the font and its characteristics including the extended characters that are printable. None printable extended characters will show either a box, space or dot.

Print ----- Compare ----- Both as Normal

This will print both the selected fonts from list #1 and list #2. Both are printed at normal and 14 point size only. Print format example below.

Printed on 00-00-0000

using FontMe! by Fischer Grafix & Software

Font Name - 14 point (from list #1)

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Font Name - 14 point (from list #2)

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Side by Side compare

AA aa BB bb CC cc DD dd

II ii MM mm

The side by side compare will show the font from list #1 on the left and the font from list #2 on the right.

Print ----- Compare ----- Both as Shown

This will print both the selected fonts from list #1 and list #2. Both are printed at the selected size and style from the screen selections. Note: you must make the selections before you can print this format. No extended characters will be printed in the comparison mode of printing. Print format example below.

Printed on 00-00-0000

using FontMe! by Fischer Grafix & Software

Font Name (14 point - Normal) (from list #1 using the setting on the screen)

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Font Name (18 point - BoldItalic) (from list #1 using the setting on the screen)

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

1234567890!@#\$%^&*(){}<>?

Print ----- Example of All fonts ----- Font as Title

This will allow you to print all the fonts that are in List #1. You will be notified of the amount of pages that will be required to print this list. This is an approximation only. When you have selected this option, and have verified your action a scale will appear between the example font list #1 and #2. This will move across to notify you that the program is spooling. At the end of this print out (last page), you will get a page that shows you the fonts that did not print, and a printout from your

win.ini font substitute list (see below). All pages will have a page number at the bottom of the page for easy reference. The program will also print a table of contents with these page numbers and fonts. Print format example below.

Printed on 00-00-0000 using FontMe! by Fischer Grafix & Software
Font Name - 14 point
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@#\$%^&*(){}<>?
Font Name - 14 point
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@#\$%^&*(){}<>?
Page X

There will be 7 fonts printed per page, with a page number at the bottom of the page. This corresponds to the content printout at the beginning. All fonts will be printed in normal style and 14 point size.

Print ----- Example of All fonts ----- L1 as Title

Same as above but the font selected in list #1 will be used to print all the font names, page numbers and titles (fonts like symbol are not easily readable).

Print ----- List #1 names only

This list is similar to the content list in the ALL print. You will also get a font count at the top of the list. These are screen fonts only, and cannot be changed.

Print ----- List #2 names only

This list is the same as List #1 names only print. These can be screen fonts, printer fonts or saved font list, depending on your selection. This is useful in comparing the screen fonts to printer or saved font lists.

Print ----- Win.Ini sub list

This list is taken from your win.ini file. These are the fonts that Windows will use as substitutes. If the file shows "Helv=MS Sans Serif" and your document was created using Helv font, when you bring up that document, Windows will substitute MS Sans Serif for Helv.

Delete List ----- View List
Add #1
Add #2

Once a font is selected in either the first or second list Select delete list from the option menu, then select either add #1 or add #2. This will add the font to a list for later printing. This list will show the name of the font plus the drive/directory/name.ext of the font as it exists on your computer. To remove the selected font use the appropriate method (ie.: postscript fonts can be removed or added using ATM, Truetype can be removed or added using the Windows control panel). Once you have removed them from windows you can now use the printed list to remove (delete) the font from your hard disk. For ATM fonts you will have two files to remove. When viewing the list you can either print it out or clear it for further use.

Characters ----- Show All Characters
Show Ext. Characters

The box under the size and style box is the character list. The default is Ext. Char.. You can scroll through this list and see the extended characters that are available for the selected font. If you select All from the list, both boxes will display all the available characters in that font. When you select one of the characters you will see it enlarged next to the list. Double-Clicking on the enlarged character will copy it to the clipboard for pasting into another program.

Enlarge Box

The box under the font count box. Hold the mouse button to view the selected character in 72 point size. The character selected in the All Characters list from list #1 will be used as the display character.

Register

This is where you print out the registration form for FontMe! (at least we hope you enjoy the program enough to

register it). This will keep us interested in updating the program in the future.

Quick Help

These screens are here to help you get the program running without reading this document and are not meant to replace this file.

Section 3 ----- About Shareware

Shareware is a try-before-you-buy process in which you are allowed to use the program for a specific amount of time. This time will vary from software to software. The grace period for this program is one week. If after that time, you find this program useful, you are expected to register with the author (see registration Information below). If however, after the specified time you do not find the program useful, you are required to remove it from use. Remember that the shareware system will only work if you support, it by registering your program with the author. This also encourages the authors of shareware to continue to write quality programs, upgrade existing programs and supply support. If you choose not to register, we would still like to hear about any comments or suggestions you have about FontMe!.

Section 4 ----- Problems & Tech Support

If you encounter any problems with FontMe!, write us stating the problem along with the version number of the program (it is located in the main screen on the right side). You can also give us a call at (714) 898-7262 between 5:00 - 7:00 PST for technical problems. We will be glad to do everything we can to get your problems solved quickly. Please limit calls to PROBLEMS ONLY, send in your comments or suggestions. Note: We will NOT accept collect phone calls. Phone help is for Registered users. You may also fax us at the above number at any time. If you are having a printing problem please consult your Windows manual first.

Removing FontMe! - Delete FontMe! group through Windows first (see manual)
FontMe!.Exe, FReadMe.Wri, - found in FontMe! directory (delete files & directory)
FGS001.FGS, Setupkit.dll, VBrun200.dll - Found in Windows or System directory (*VBrun200.dll may be required by other programs*)

Section 5 ----- Permission to Copy

Clubs, Individuals and other Organizations are granted permission to freely distribute this program and its associated documents. We would however like to hear from you so you can be placed on our mailing list.

Distribution Requirements;

1. The registration fees for this program are to the author ONLY.
No fees are charged for the software and it's documentation, above and beyond the distribution, (normally under \$6.00) fees for disk duplication and
2. No advertisement can be made as to the program being public domain or free. All advertisements must state that FontMe! is SHAREWARE.
3. No modifications can be made to the program or its accompanying documentation.
4. All persons to whom this program is distributed, must be informed of, and encouraged, to support the shareware concept.
5. All files included with FontMe! must remain together and be distributed on the same diskette or Arc'd together. NO FILE MAY BE DELETED
6. **FontMe! may not be distributed as "Rackware", without our written permission.**

Section 6 ----- Disclaimer (legal stuff)

FontMe! is supplied as is, with no written or expressed warranty other than its functionality as stated above. Fischer Grafix & Software reserves all rights to FontMe!, and its associated documentation. In no event shall Fischer Grafix & Software, it's employees or suppliers, be liable for any damages, but not limited to lost profits, lost savings, lost information or other incidental or consequential damages, arising out of the use or misuse of this program.

Section 7 ----- Registration Information

The Registration fees for FontMe! are \$18.50 US. Registration entitles you to the latest version of the program as they become available. You can also call us with any problems (see Tech support). Only registered users will receive over the phone help (unless there is a problem with installation). We will verify registrations. As a registered user you will be the first

one to be informed of any major upgrades or modifications made to the program. Your comments / suggestions will have the highest consideration for incorporation into the next versions of the program, so please include them. CREDIT CARD users may call 1-800-847-0309 to register (Visa, MasterCard or American Express)

Section 9 ----- ASP (Ombudsman)

FontMe! is produced by Fischer Grafix & Software, a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442 or send a Compuserve message via easyplex to ASP Ombudsman 70007,3536.

Section 9 ----- Vendor Information

Program Name : FontMe!

Categories : (in order of preference)

- 1 : Windows - Utilities
- 2 : Windows - Fonts

Program Requirements :

Windows 3.X with Mouse

Features :

Compare & Print Windows fonts

Included Files :

FontMe!.Ex_, FReadMe.Wr_, FGS001.FG_, Setup.exe,
Setup.lst, Setupkit.dl_, Ver.dl_, VBrun200.dl_, Setup1.ex_

Registration Information :

\$18.50 US funds for either media size + S/H

Author Information :

Fischer Grafix & Software
P.O. Box 606 - Midway City, CA. 92655-0606
Phone/Fax : (714) 898-7262
CompuServe ID: 70233,1315

Program Description :

FontMe! is an easy to use comparison/printing program for Windows. If you have more fonts than you know what to do with or are just a font collector you will enjoy the ease of use and printing features of FontMe!. Compare one font to another on screen (size and style are selectable) then print the results. Print your entire font list. See the difference between screen fonts and printer fonts. If you find similar fonts, place the ones you don't want on the delete list then print it for future use or removal. If you have ever wanted to compare your fonts because you know there are some very similar fonts, FontMe! is for you.

Page 7

Help Us to Serve You Better:

If you are going to include FontMe! in your library or catalog, please notify us so you can be placed on our update list. We would also very much appreciate anything you write about, review or enter in your catalog about FontMe!. If we do not hear from you we will assume you are not going to place the program in your library/catalog and we will remove you from our mailings. As you know mailing to someone who does not use your product or service is very expensive and time consuming. We would like to thank you for your time and for your support in the Shareware Concept.

Software Reviewers:

Please contact us to be sure you have the latest version of the program. This is to insure your information on the program and its registration is correct at the time of your review. Thank You in advance.
