**Why You Should Register**

now offers the opportunity for you to register your copy of . Here's why:

As a reasonable guess, around 1200 hours of work have gone into it here the Wonderworks. This is a non-trivial amount.

Most of the e-mail received outside the KEW.COM domain is now related to . This, combined with the intra-domain e-mail major requirements for KEW.COM soon going away, threatens to become its own perpetual motion machine: we maintain to stay in touch with the outside world, and the outside world sends us mail about maintaining .

It is an accepted fact that the original UUPC was not written by , and that others have written numerous additional features include UUCP, UUX, and pending features include support for the "f" protocol and news. What is not as clear is the work done here which goes into integrating, and polishing these features; because of work done here, people can take the work done all over world and use it by unpacking a few files.

Ryder rents trucks, Avis tries harder, and hunts bugs. Lots of bugs; bugs from the dawn of UUPC, bugs from other people's code, and even bugs we introduced (Oops). A second system is maintained here for the sole purpose of providing downloading services to others via Kermit and anonymous and for hunting bugs. Only RAID kills more bugs. We also integrate bug fixes from other people, so those few files we have to unpack not only have more features but also bug fixes.

Bug hunting can be bitch, and writing documentation is worse. has done both gratis for two years. Beginning with release 1.11m, the documentation has been expanded, and will be further enhanced to make the package easier to use. This does not benefit the internal users; we know how it works, and don't need the documents.

Because if you register, we can buy more chocolate for Snuffles.

The short version the above is you have the package; what you can pay for is additional enhancements and support by the creatures most knowledgeable about .

**And as an added bonus**

Send us anything and Snuffles will think you're wonderful.
