## This is the Main Title, or the pic above.

### This the Sub Title, as your name, etc.

This the main body text. This the main body text. This the main body text.  
This the main body text. This the main body text. This the main body text. This the  
main body text. This the main **body** text. This the main body text. This the main  
body text. This the main body text. This the main body text. This the main body  
text. This the main body text. This the main body text. This the main body text.  
This the main body text.

### Now for Some Samples:

{bml SAMPLE2.BMP} This is a sample of how we make text flow along the side of the  
graphic. This is a sample of how we make text flow along the side of the graphic.  
This is a sample of how we make text flow along the side of the graphic. This is a  
sample of how we make text flow along the side of the graphic.

{bmc SAMPLE2.BMP} This is a **sample** of how the text will start at the bottom, but  
will still hug the left side.

### How About some Popup.

{bmc SAMPLE3.BMP}  
This a graphic with a popup

So we know that graphics can popup, we can also make certain words or a word  
have the same feature. Can we make this word popup, for you?

We will build the popup new PopUp Topic.

- 1) Hard Page Breaks starts a new Topic, a popup Topic.
- 2) All we need is a Build Tag, Context String, and Title.
