## 1.2 Register This CD

Remember - REGISTER!  
~~~~~

As soon as you have time, please don't forget to register this CD! This will entitle you to a number of things:

FREE Catalogues.

SPECIAL Offers.

DISCOUNTS on future CD releases.

TECHNICAL Support for this and other SAdENESS Compact Discs.

A VOICE on future developments.

As you can see, registering is well worth the trouble, and the very small price of a stamp! Go on, what are you waiting for??

## 1.3 Introduction

INTRODUCTION  
~~~~~

SAdENESS Software is proud to present:

--- Utilities Experience Volume 1. ---

After The great success of our first Amiga CDROM disc - 'The AGA Experience', we decided that we should utilise our highly acclaimed interface system to produce a series of Compact Discs suitable for virtually any Amiga Owner.

'The Utilities Experience Volume 1' is the perfect CD for any serious Amiga owner. It features every utility program off the AGA Experience Volume 1, and many other productivity programs from many other sources.

We decided from the start that we wanted to have as much of the contents as possible ready to run straight from the CD. Some CDs have everything compressed which is in my opinion really defeating the object of CD. Why shouldn't you be able to use as much as possible straight from the CD? Due

---

to this, we have also stayed away from confusing menu systems, and have opted for the approach most people should be happy with - a MagicWorkbench front-end with virtually everything accessible through a standard double-click with the mouse button. With most things ready to run, this CD holds slightly less than some other CDs, but I think for most people having well over 700 meg (decompressed) of the VERY BEST Utilities is enough!

We have worked very hard for many months on The Utilities Experience, and have done our very best to ensure it is of the very highest quality.

Richard Brown.

Kristian Phillips.

## 1.4 System Requirements

### SYSTEM REQUIREMENTS

~~~~~

Most of the programs on The Utilities Experience were designed for use on an Amiga computer which is running a minimum of Workbench 3.0 and a 68020 processor. A lot of the programs on this CD also require the AGA chipset, which at the time of writing includes A1200s and A4000s. Some of the programs on this CD will also run on the CD32 but may require hardware that is not available on the stock CD32 console.

### NOTE:

At this time, we would consider Workbench 3.0+ and a 68020 processor the bare MINIMUM any SERIOUS Amiga owner should be using. WB3 has been available for more than 3 years, and since the launch of the Amiga 1200, there has been no Amiga released with the incredibly slow 68000 processor. If you try to use this CD with Workbench 2, and/or a bare 68000 processor you will find many programs simply do not run. You have been warned...

### Minimum Requirements

WB 2.04+ (WB3 HIGHLY Recommended!!!!!!)  
2 meg RAM.  
CDROM drive (duh - really???)  
Hard Drive (some software MUST be installed to Hard Drive to work properly).  
Amiga (double duh!)  
68020 processor. (Some software MAY work on a 68000 - No Guarantees!)  
ECS Chipset.

### Recommended Requirements

WB 3.0+  
2 meg RAM (or more).  
Double Speed CDROM drive (or faster).  
Hard Drive  
Amiga 1200 (or higher).  
68020 processor (or higher).  
AGA Chipset (or Graphics card).

---

To fully utilize the programs on the disc, using the CD32 system, you may need to add the optional keyboard, mouse, floppy drive, and RGB monitor. Some of the files in this collection may be stored in compressed formats and need to be decompressed to a floppy or hard disk to run. Due to the fact that this CD is NOT BOOTABLE, if you wish to use it on a standard CD32, you will have to use some sort of file transfer program in conjunction with a bootable CD. If you are not sure about this, we would be pleased to advise.

## 1.5 Business

Business Software  
~~~~~

On this CD, you will find several business applications.

These include programs such as databases and personal accounts programs.

If you use your Amiga for business, this is the place to be!

INDEX

AmiBroker	- Stock Charting/Analysis program.
AmiCheck	- Powerful chequebook/accounts manager.
BancaBase	- Accounts program.
Blitzbank	- Banking program.
CDDatai	- Music CD database.
db2.9	- Good Database program.
DFA	- The Ultimate address program.
EasyBase	- Simple database that uses MUI.
EOrganiser	- Everyday organiser.
FiloFax	- A german organiser program.
FKM	- Business program?
Mui-Rechung	- Database program.
Onform	- Invoice/Orderform program.
PDBase	- Keep a database of your Amiga PD collection (MUI)
Recall	- The ultimate reminder program.
Scion	- Database for gene information.

## 1.6 Comms

Comms Programs  
~~~~~

If you have a MODEM, this is the place to be. Highlights include the complete excellent TERM package!

INDEX

|       |                                        |
|-------|----------------------------------------|
| AmFTP | - File transfer prog for the internet. |
| AmIRC | - Chat program for the internet.       |

---

Aweb - GREAT web browser for the internet.  
 backarc - Dearchives downloads automatically.  
 HTML heaven - Make your own web pages.  
 InternetInstaller- Get on the 'net.  
 metamail - email prog for the internet.  
 Mftp - File transfer prog for the internet.  
 Mosaic - The famous Amiga WWW browsing software.  
 NCP - Some programs for you lucky Psion palmtop owners.  
 Term - The best Comms program on the Amiga!  
 Thor - Mail/News prog.  
 UUxT - This allows you to encode files to send them via E-Mail.  
 Voodoo - email prog.  
 Yam - email prog.

## 1.7 Datatypes

Workbench 3 Datatypes

~~~~~

On this CD, there is a collection of every Workbench 3 Datatype we could find.

Datatypes allow many new programs to access file formats that they would otherwise be unable to. For example, if you have a JPEG Datatype installed in your system, you would find that many modern programs would gain the ability to read and write JPEG pictures!

There are Datatypes available for many different file formats, these include pictures, animations and even sound samples.

The only problem with Datatypes is that they require Workbench 3.0 or later, but as you consider yourself a 'Serious' user, you should already be using WB3 shouldn't you?? If not, do yourself a favour and get a 3.1 upgrade kit - you won't regret it!

INDEX

AIFF - Sound Datatype  
 AOM\_RAW\_DT - Sound Datatype  
 BMP\_datatype - Picture Datatype  
 DTPrefs - Alter the settings for various Datatypes.  
 FontDT - Datatype for Amiga fonts.  
 GIF - Picture Datatype  
 HSN\_DT - Maxon Magic Sound Datatype  
 Icon - Another Icon Datatype.  
 InfoDataType - Amiga Icon Datatype  
 jfif\_dtc - JPEG/JFIF Picture Datatype  
 MacSND - Apple Macintosh Sound Datatype  
 MAUD\_dt - Toccata Sound Board Sample Datatype  
 PCX - Picture Datatype  
 PNG\_dt - PNG picture datatype (PNG - better replacement for GIF)  
 post - Postscript Datatype (requires post.library)  
 QRT\_DT - PovRay Dump Format Datatype  
 reko.datatype - Klondike Cardsets Datatype  
 SampleVision\_dt - MSDOS Sound Datatype

sun.datatype - Sun Raster file (SUN Picture) Datatype  
 TIFF - Tiff picture datatype.  
 TPD - Another PCX picture Datatype  
 TX16W\_DataType - Yamaha Sample Sound Datatype  
 VOC - Sound Datatype  
 WAV - Sound Datatype (Mainly IBM/PC)  
 wpg.datatype - Wordperfect Bitmap Picture Datatype

## 1.8 Demos

### Productivity Demos

~~~~~

We have placed a number of demos of some of the Amiga's best productivity software on this CD. This will allow you to try-before-you-buy and decide if a particular program is suitable for you.

For example, if you are considering buying a Ray-Tracing package, there is a great demo of 'Cinema4D'. There is also a demo of XIPaint (A very powerful 24bit paint program), and several other demos of popular software.

One highlight is a demo of the BEST astronomy program on any computer - Digital Universe.

### INDEX

ADpro - Image processor.  
 AFSDemo - Demo of the new Amiga filesystem (Advanced Users Only!!)  
 Amms - new BBS program.  
 Balls! - The best lottery prediction program.  
 blitzbasic - Probably the best BASIC on the Amiga.  
 CheckItOut - A demo of a great personal finance program.  
 Cinema-4D-Demo - This is one of the best Amiga Ray-Tracers.  
 DemoMania - Make your own demos.  
 DesignWorks - Demo of structured drawing program.  
 Diavalo - A BRILLIANT (MagicWB looking) backup program!  
 DigitalUniverse - This is the BEST astronomy program on any Machine!  
 Diskmagic - Opus-like program.  
 DPaintV - This must be the Amiga's more famous paint program.  
 EasyCalc - This is a brilliant easy-to-use spreadsheet program.  
 Els - Easyledgers business software.  
 FreeForm3D - Preview of great 3D modeler.  
 ImageFX - Demo of the great image processor.  
 MagicLink - A new 3D object conversion tool. (german)  
 Mand2000Demo - A BRILLIANT mandel program!  
 PBDemo304 - Don't know??  
 PgxDemo12 - Photogenics 1.2 -the BEST image processing program!  
 PMBS - another good BBS program.  
 PNDemo20c - Pro Net electornics program.  
 Raystorm - Raystorm is a very fast Raytracing program.  
 Reflect - Demo of reflections ray-tracer.  
 Sbase4 - Database  
 Sonic - Sonic Arranger music program.  
 StormC - Demo of great new programming language.  
 Stylus\_Demo - The latest structured drawing program.

Termite demo - A very good comms program.  
 TurboCalc - Another demo of a powerful Amiga spreadsheet.  
 TwistDemo - Probably the best Database on the Amiga.  
 Quill - Great new text editor.  
 X-DVE2 - Animation editing/playing program.  
 XiDemo - A great 24bit paint program.

## 1.9 Disk Tools

Disk Tools  
 ~~~~~

On The Utilities Experience, there are most of the Amiga's best tools concerned with floppy, hard and CDROM drives.

There is a brilliant optimizer program (Re-Org), and the best disk salvage program (Disksalv). Along with these, there is a CDROM filesystem, some CD32 programs and a cache program to speed-up your drives.

INDEX

AmiCDFileSystem - A CDROM filesfyetm supporting Mac CDs.  
 AmiCDFS2 - CDROM filing system.  
 AmiCDROM - Popular CDROM filesystem for SCSI CDROMS.  
 Atapi - Use IDE CDrom drives on your A1200/A4000. (Demo)  
 CacheIt - A Floppy Cache (speed-up) program.  
 CD32Goodies - Various little tools for CD32 owners.  
 CD32Tools - More utilities for CD32 owners.  
 CDPlay - A small CD player for Xetec CD software.  
 CD\_Stop - Stops the CD spinning on CD32.  
 DiskMon - Diskmonitor/Editor (USE WITH CARE!!)  
 DiskSalv2 - Recovers corrupted disks.  
 EmpCD - Use CDROM drives with Emplant and Shapeshifter.  
 HDOff - Switches off IDE drives after set time-saves power & noise.  
 HD-Tools - Various useful A1200 HD Tools (some German programs).  
 MFS - If you use different filesystems (PC etc) this is for you.  
 MRBackup - Good disk backup program.  
 Playcddal.1 - Play CD audio and MPEG files in DOpus 5.11.  
 ReOrg - Optimizes (speeds-up) disk access.  
 SlowReset - Prevents errors by allowing diskaccess to stop before reset  
 SmartCache - A Floppy Cache (speed-up) program.  
 StatRam3 - A RAM disk that survives resets.  
 Vdisk - RAD replacement

## 1.10 Emulation

Emulation  
 ~~~~~

On this disc we have selected the very best emulators.

With this selection, you can run programs intended for other computers.

---

Do you fancy running DOOM or Dark Forces?, well take a look at the brilliant Shapeshifter. How about a nostalgia trip back to Jet Set Willy?, then try ZXAM.

There is also a demo of PCTask (PC Emulator), and Frodo (C64 Emulator), plus the latest and greatest C64 emulator - Magic64 (including some classic games!) and a few more..

#### INDEX

|                |                                                          |
|----------------|----------------------------------------------------------|
| A4             | - C16 Emulator.                                          |
| Amoric         | - The first Oric Atmos emulator (including games)        |
| Amstrad        | - 8bit amatrad emulator.                                 |
| AppleII        | - A brilliant AppleII emulator (including games!)        |
| Atari800       | - Old Atari emulator.                                    |
| AXF_64         | - Latest C64 emulator.                                   |
| Emplant        | - This drawer contains miscellaneous tools for Emplant.. |
| fmsx           | - emulates the little-known MSX computer.                |
| Frodo          | - C64 emulator.                                          |
| Gameboy        | - Have a guess!                                          |
| Magic64        | - Very good C64 emulator.                                |
| MSX2           | - Another good MSX emulator.                             |
| PC-TaskDemo3_1 | - Demo of great PC emulator.                             |
| Shapeshifter   | - A Shareware Macintosh Emulator (requires Mac ROM)      |
| ST             | - Atari ST emulator - needs ROM.                         |
| ZXam Spectrum  | - Brilliant Speccy emulator (plus games!)                |
| ZXFiles        | - Speccy diskmag.                                        |

## 1.11 Graphics

### Graphics Programs

~~~~~

We have selected the best Graphics related tools for this CD.

There are hundreds of programs, from fully-fledged paint programs to a great selection of mandel/fractal programs.

Owning an Amiga, you must be at least a tiny bit artsistic, so what are you waiting for? Get stuck in..

#### INDEX

1942PatchAGA	- Updates WB to deal with 1940/1942/VGA/Multiscan monitors.
AAStarter	- Use startup menu with VGA monitors.
Ad	- GFX viewer/Ripper.
AGAiff	- IFF to RAW convertor.
AGA_Test	- Shows all the colours the AGA chipset is capable of showing.
aMiPEG_0.4	- Shows MPEG animations.
Amountains	- Renders mountains on your Wb screen.
Anim3D	- Plays 3D animations in multitasking windows.
AnimPoint	- Animates the mouse pointer.
ART-Pro	- Image manipulator/convertor.
AutoPeg	- Automatically compress/decompress JPEG files (Needs MUI)
BeyondTheDark	- New screen-saver.

---

BlitzBlank	- Brilliant screen-saver (needs MUI)
BluffTitler	- A real-time video titler demo.
Bview_133	- IFF viewer.
CG_Demo	- AGA character generator for video work.
ChaosPro	- A FABULOUS mandel/julia program!!!!
CheckAGA	- Checks whether the AGA chipset is installed
cloudsaga	- Creates beautiful AGA cloud patens.
CyberShow	- Pic viewer for cybergraphics card owners.
CyberTV_Player	- Anim program for cybergraphics.
doublex	- Ensures that all screens support VGA monitors.
DT2IFF1.0	- Converts Datatype pictures to IFF/ILBM.
DTView	- Shows any picture you have a Datatype for.
Dynamics	- A brilliant AGA paint program.
Dust	- Rendering program.
FastJPEG	- Fastest JPEG viewer available.
FastView	- Shows IFF/GIF files.
FixSprite1_03	- Fixes AGA pointer bug.
Flick_1_4	- Plays FLI/FLC animations.
FractalComp	- Compress pictures with Fractal compression.
Fractint	- Fractal/Mandelbrot generator.
FU	- Great new mandel program (needs installing to hard drive)
Gif2PNG	- This converts GIF pictures to the superior PNG format.
GfxCon	- Easy-to-use program to convert pictures to dif formats.
Graphics_Card	- This drawer contains programs which require a Graphics Card.
ham8-jpeg	- Shows JPEG pictures in HAM8.
IE	- Image Engineer is a brilliant Image Processor.
IFF_FX_AGA	- Small AGA picture manipulator.
IFF_Master	- Image processing program.
ImageStudio1.2.1	- Image processor.
ImageStudio	- V2.00 of the great easy-to-use Image Processor.
IPR_Demo	- Demo of FAST Intuitive Image Processor.
JIV	- AGA/GFX card picture viewer.
jpegAGA	- Another JPEG viewer.
MagicLayers	- Real Time windows.
MagnifiCAD	- CAD program.
MainActor	- Animation editor/player that supports many formats.
MandelTour	- Good Mandel program.
MonEd3a	- Edits properties of screenmode.
MP103	- MPEG animation player.
mpeginterface	- Interface to play MPEG animations.
Navigator	- A 3d virtual reality presentation program!
ntsc4ntsc	- Changes screenmodes (eg PAL to NTSC).
NTitler	- Realtime 3d video titling program!!!!
NWiper	- A realtime texture-mapping video program!!!!
patchpointer	- Prevents annoying LOWRES AGA pointers.
PCXAGA	- PCX picture viewer.
PhotoCD	- Loads PhotoCD pictures into Art Department Professional.
PhotoCDAGA	- Converts PhotoCD pictures to IFF/ILBM format.
PicCon	- Programmer's picture convertor.
PicScaler	- A program to scale IFF/ILBM pictures.
Plasma	- Plasma cloud generator - very pretty!
PlayKiss	- Plays 'KISS' animations.
PNG_Dt	- Datatype for PNG pictures.
povray	- 68040 only ray-tracer.
PPShow	- Flexible picture viewer.
PrintFractal	- Prints lovely fractals.
procurepens	- Colour setting software for WB3.0 or higher.

---

QuickGrab	- Screen grabber.
RaystorBin	- Ray-tracing program.
RaystorExa	- Examples for RayStorm.
Rend24	- Converts single frames to animations plus much more.
ScanCentre	- A scanning program for SCSI HP scanners.
ShowObj	- Shows 3d objects in a window (needs MUI).
ShowPCX	- Shows PCX pictures :-)
SplatterPt	- Powerful paint program.
SuperViewEL	- Shows many different formats, and grabs screens etc.
SSPro	- Creates 3d stereo pictures upto 24bit!
StusCDXL	- Play CDXL files from a smart interface!
TIFF43.1	- Datatype for TIFF 43.1.
TIFFView114	- Reads, Views and prints loads of different formats.
TPaint	- A 24bit paint program for AGA Amigas.
TSMorph	- Easy to use morphing program.
UltraConv	- One of the best picture converters around.
U_PAINT	- Simple paint program.
Viewtek	- Versatile picture viewer.
Visage	- WB3 Picture viewer.
Visuall.00	- Shows HAM8 'thumbnails' of your picture collection.
vr_world	- Virtual reality type 3D worlds.
wbverlauf	- Rainbow coloured WB backdrops.
WBView	= Show HAM pictures on Workbench.
WBWinplay	- Plays anims in WB windows.
WindowBlender	- The author calls this 'Mind Candy' - who knows?
WSpeed14	- Tests the speed of your Amiga's graphics.
XAnim4	- Plays a multitude of different animation formats.
XFig	- A brilliant structured drawing program (needs MUI).
xv218	- Great image processor (Requires MUI - Inside WBTools).
ZGIF	- Fast GIF viewer.
ZGIF_DRVR	- Easy viewing of hundreds of GIFs.

## 1.12 Icon Tools

Icon Tools  
~~~~~

On this CD we have selected virtually every Icon and Icon tool available.

You will find loads of Magic Workbench files and icons, great icon editors and manipulators, plus much much more!

### INDEX

|               |                                                          |
|---------------|----------------------------------------------------------|
| Associate     | - Checks file type and adds appropriate icon.            |
| IconCopy      | - Easily manage your icons.                              |
| IconDeluxe    | - Fully-featured icon editor.                            |
| Iconian       | - The BEST icon editor!                                  |
| IconInstaller | - Another great icon manager.                            |
| Icons+Stuff   | - A great collection of Icons and WB backdrops etc.      |
| IconToolBox   | - Converts pics to icons + more (Needs MUI)              |
| IconTools     | - A collection of powerful tools for dealing with icons. |
| Opticon       | - Cuts down icons to save space.                         |
| Picticon      | - Easy program to add icons to pictures.                 |

## 1.13 Misc

### Miscellaneous Programs

~~~~~

All those programs which we just couldn't categorise end up here. They range from a text editor to a MUI based geograph program!

Take a look - you should find something good.

### INDEX

3.0iUpdate	- Update to the latest Pagestream.
Abgtwb3	- Guide to Workbench 3.
ActionReplay 5	- Grab pictures/mods from games etc.
AGA_Switch	- Switches off AGA chipset from WB.
Aiib	- Performance tester.
AlBin-MUI	- MUI cataloging program.
AlertTimer	- Determines how long system alerts are displayed for.
AmiGlobe	- Great educational program about the Earth (MUI)
Animan	- Animated face on WB (needs sound sampler)
Artic1_63	- Compresses files as they are used/saved (Real-Time).
Assist17	- Guide program.
AWS	- Shows your system's info whilst booting. Neat.
BlueEyes v1.3	- Eyes that follow the mouse.
Boot020	- Boots CSA accel in 020 mode.
BootUte_2	- This is a brilliant degrader program.
Busypointers	- Neat AGA busypointers.
CPU-Control	- Alters your processor caches etc.
CPULoad	- Shows how busy your Amiga is.
CrMV1.9t	- Powerful compressor.
Dopus511	- Update your original DOpus 5 to 5.11.
EasyDMS	- Deal with DMS files easily.
EscomBoot	- Boot pics with Escom Logo (No Icons)
exept49	- speed up hack.
FakeMouseCD32	- Use controller as mouse on CD32.
FastBoot	- Boot your amiga FAST!
FastMath406	- Faster maths libraries (needs FPU)
Funky	- Graphs etc.
GetScreenID_1.1	- Gives screen type of screen.
GoldEd	- Powerful Text Editor (needs installing to Hard Drive).
Graph2Dv3.2	- More graphs.
HandPointer	- A neat Hand pointer for WB3.
HandyDMS	- Deals with .DMS compressed files.
Hsc	- A tool to help develop HTML documents.
IFX21to21aPatch	- Updates ImageFX 2.1 to 2.1a.
IntuiCookie BGUI	- Random fortune cookies.
IntuiCookie Req	- More random fortune cookies.
IPatch	- speed-up hack.
Luminus	- Text viewer.
Megasearch	- CDROM database program.
MiserPrint	- Printer utility for HP printer owners.
NCP	- Some programs for you lucky Psion palmtop owners.
NFABoot_V2.42	- Boot Util
NVRAM	- Tool for altering the 1k non-volatile RAM on CD32.
PatchAllocMem	- Changes CHIP RAM to FAST RAM.

PDBase	- Catalogues your PD collection (needs MUI)
PicBoot	- Shows a picture during booting.
Planetarium	- Very good space program.
PointerX	- Animates clock hands on mouse pointer.
PSPrt	- This basically give you a postscript printer!
Scout	- Great System Monitor.
SF_VBlast	- BLAST those viruses etc.
SteveHR	- Mental talking head!?!?!?
Studio	- Updates Studio Printer software.
Sysihack	- Changes look of scroll bars etc.
SysSpeed	- Checks just how fast (or slow!) your Amiga is.. (MUI)
TapeCover	- Designs covers for music cassettes.
Term	- The best Comms program on the Amiga!
Text Engine	- Great Shareware word processor with spell checker.
TRSIVW	- Another good virus killer.
UUxT	- This allows you to encode files to send them via E-Mail.
VirusChecker	- Great Virus Killer.
VirusZ	- VERY good virus checker.
VT	- Another virus killer.
X-Windows	- Nice WB look.

## 1.14 Music

### Music Programs

~~~~~

Boom shakka! If you feel the need for those funky vibes, check this out man!

### INDEX

|              |                                                     |
|--------------|-----------------------------------------------------|
| AudioLab     | - Very powerful new music program.                  |
| Camouflage   | - MIDI tool.                                        |
| Delitracker  | - Great Mod player.                                 |
| FP_ADPCM     | - Some sound tools for CDROM owners. (that's you!)  |
| Gfft         | - Sample Program.                                   |
| HippoPlayer  | - Modplayer                                         |
| Interplay    | - Audio CD Player.                                  |
| Play16       | - Plays loads of different sound formats (like WAV) |
| SoundBox     | - Powerful music utility.                           |
| Stonetracker | - Music tracker program.                            |
| Sypmph       | - Another music program.                            |

## 1.15 Programmers

### Programmer's Files

~~~~~

On this CD you will find some Programs and source code that coders will hopefully find useful. There is no index for this directory, as all the directory names are pretty self-explanatory. Also, I don't really know anything about programming, so any description I attach would be poor at best and probably just plain wrong!!

Besides, if you plan to program your Amiga, you shouldn't find it too difficult to find what your'e looking for..

## 1.16 Rendering

Rendering Software

~~~~~

On this CD you will find a very nice selection of files for all you 3D fans out there. This includes objects, textures, tools and help files.

These are not indexed, but any 3D fan should have no problem finding what they are looking for.

## 1.17 Text Files

Text Files

~~~~~

On this CD there are various text files and other useful sources of information. There is, for example, a detailed Amiga 4000 guide which tells you everything you will (probably) ever need to know about the machine, and also a few details about the A1200. There are details on connecting a CD32 to an Amiga, some useful Internet information and some reviews of popular upgrades. All of these files in this directory are ready-to-run straight from the CD.

## 1.18 Video

Desk Top Video Software

~~~~~

If you are into DTV, then you should find something of interest here. There are several Titling programs amongst other things.

One highlight, are several EXCLUSIVE backdrops created by us here at SAdENESS software. There are versions for ECS and AGA owners, all in Hi Res PAL laced, with overscan for maximum quality.

INDEX

|                |                                                |
|----------------|------------------------------------------------|
| BluffTitler    | - A real-time video titler demo.               |
| CG_Demo        | - AGA character generator for video work.      |
| NTitler        | - Realtime 3d video titling program!!!!        |
| NWiper         | - A realtime texture-mapping video program!!!! |
| VideoBackdrops | - Some exclusive DTV backdrops.                |
| VideoTitler    | - Another video titlin program.                |

## 1.19 Workbench

Workbench & Shell Software

~~~~~

We have selected over 7 meg of the best music modules we could find. On other CD's you tend to get a lot of mods repeated, on this CD we have tried to get them from original sources.

To run a music module, you simply have to double click on the icon you require.

If the selected module will not play, this means you have'nt got enough memory to play it. The mods on this CD are quite large, so if you haven't got much memory, you will probably find that a lot of them will not play.

### INDEX

AlertPatch	- Patches your alerts.
AppTrashcan	- Gives you a trashcan on your WB (Like the Apple Mac)
arq	- This gives you great animated Workbench requestors.
AStart	- Tool manager program.
Browser	- A brilliant filemanager.
ClassAction	- Works with ANY program type.
ClassPatch	- Patches classact.
Colorado	- MagicWB colour program.
ColorPatch	- Changes Workbench Colour/Contrast/Brightness etc.
Csh547	- CShell is a brilliant powerful replacement for Shell.
CycleToMenu	- Changes the 'radio' gadgets into menus - very good.
DaLastAlerts3	- Records last GURU/Software failure number.
DClock15	- Digital clock for WB.
Dhrystone	- Standard benchmarking program.
Executive	- This great program improves your Amiga's Multitasking.
ExtraInfo	- Deluxe replacement for the original WB 'Information'.
FREAK BOOT V2.6	- Boot your 1200/4000 with extra goodies!
IconifyGadget	- Adds iconfy gadget to windows etc.
KingCON1.3	- A very powerful Shell enhancer.
Luminus	- Text viewer.
Madhouse	- Latest screen saver.
MagicEye	- Puts eyes that follow your Mouse on your Workbench.
MagicFrames	- Makes your WB look better in Hi-Res modes.
Magicmenu	- Greatly improves WB menus.
MCArchive	- This is the very BEST clock program on the Amiga!
MCP	- The all-in-one PD utility program (Needs MUI)
MCXP304	- Multi-purpose program.
ModePro	- Screen Promotor (changes one screenmode for another)
MrCopper	- Puts nice coloured patterns on WB screen.
MUI	- Popular Workbench enhancer.
MultiCX	- Small multi-purpose commodity (screen blanking etc.)
NewPatterns	- Makes Workbench redraws faster plus much more!
NoAGA_1.00	- Allows running of old progs by turning off AGA chipset.
PalReq24	- 24bit palette requestor.
PatchWBPens	- Makes WB colour-handling better.
PKludge	- Screen promotor.
PPrefs	- Another screen promotor.
RainDIR	- A very colourful replacement for standard DIR command.
Rings	- Puts animated rings on your WB.

---

RO	- A MUI based filemanager.
RO-Update	- Update to RO.
RynoDocs	- Docks brushes etc.
SetNewLook	- Corrects the white on black menu problem.
ShutWB	- Allows you to close WB for more memory.
SkyBoot	- Nice boot program/pattern.
Speedsys1.0	- Small system speed-up patch.
Starter	- Starts programs from WB.
SwazInfo	- Replacement for WB Information command.
SysPic	- Nice picture program.
SystemPrefs	- Alter Cache etc. on all processors (up to 68060).
taskBar	- Executes proram from the tool bar.
TBC	- Puts a clock in your WB titlebar.
TinyMeter	- Shows memory/drive space (needs MUI) Looks great!
TList	- A very detailed replacement for LIST command.
TM_Update	- Toolmanager update.
TollUhr	- Nice WB clock program.
Toolmanager	- Allows easy loading of WB programs.
TrashManager0.95	- Puts a trashcan icon on your Workbench screen.
VMM	- Virtual Memory (needs MMU)
WBHacksAGA	- Gives a 1024x768 screen and HAM icons.
WBinfo	- Opens the Workbench information window from the CLI.
WBMakeLink	- Makes an Icon Alias.
WBPi	- WB3 Palette editor.
WBStartup+	- Enhances the WBStartup drawer.
WBTitle	- Allows changing of text in Titlebar.
WCC	- WB colour changer.
Windoze'95	- Makes WB look like W95.

## 1.21 Workbench

Magic Workbench

~~~~~

Too many times in the past have we been very dissapointed by the look of a new CD. This is why for The Utils Experience we have decided to use the very popluar "MagicWB" colour scheme and icons. This has made our CD an absolute joy to use, and real treat for the eyes. MagicWB was created by Martin Huttenloher. In order to fully utilise this new Workbench look for those not already using it, we have supplied everything you need to change over. We have also supplied the full MagicWB1.2p package, and also a demo version of the great new MagicWB2.0.

Once again, I HIGHLY recommend you register MagicWB in order to receive V2 as this will make your Amiga much more professional looking, and you will be able to hold your head high in the company of Mac/PC owners!

The author of MagicWB (Martin Huttenloher), can be E-Mailed at:  
xen@magic.in-ulm.de

For an example of this MagicWB interface (as seen on The AGA Experience Vol 1), click [HERE](#)

For another example fo the MagicWB interface, click [HERE](#)

If you like the look of Magic Workbench, then we would recommend that you register the full version of the brilliant MagicWB 2. You can do this easily by using the Registration progrm that is supplied with the MagicWB 2 demo. If you would like to load this registration program now, please select 'MagicWorkbench Registration'

## 1.22 Future CDs

PLANNED CDs

~~~~~

After the great success of 'The AGA Experience', we decided we should use the very popular MagicWB interface and icons to create a high-quality series of CDs that cover virtually every area of Amiga use.

Below is a list of possible future discs we will release if the demand is high enough:

Women Of The Web

This will feature over 600 meg of hand selected pictures of famous women taken directly from the Internet. The pictures will be ready to view using a nice point and click interface. All pictures will have thumb nails for ease of use.

GFX Experience

This will feature virtually every PD graphics program released for the Amiga. Along with these, there will be hundreds of high-quality pictures, animations and slideshows - many created by us especially for the CD!

---

### Educational Experience

This will feature educational software for children from the ages of 3 up to about 16. All the software will run directly from the CD using a nice point and click interface.

PLEASE NOTE: All of the above titles are only ideas at present, and MAY NOT be released! If you particularly like the idea of a CD, or have your own suggestions PLEASE LET US KNOW!

Feel free to contact us at the above address if you have any further questions or suggestions about any future CDs.

TRADE ENQUIRIES WELCOME

## 1.23 AGA Experience

### The AGA Experience

~~~~~

As you will probably be aware, our first CD for the Amiga computer was 'The AGA Experience'. This was the very first CDrom disc dedicated to A1200/A4000/CD32 owners. Considering it was our first CD, it was incredibly well received. Below, are a few REVIEW SCORES:

AMIGA FORMAT	-	93% (FORMAT GOLD!)
CU AMIGA	-	90%
AMIGA USER INTERNATIONAL	-	90%
AMIGA COMPUTING	-	8/10
AMIGA SHOPPER	-	90% (BEST BUY!)

[CLICK HERE FOR SCREENSHOT OF THE AGA EXPERIENCE IN ACTION!](#)    [SCREENSHOT](#)

### Further Details:

This is the first CD dedicated to A1200/A4000 owners, and features the very best AGA-only software released over the past 3 years. Some of the main features are as follows:

- EXCLUSIVE NFA PRODUCTIONS. These quality titles were created by leading Amiga group NFA especially for this CD. These titles include AGA Slideshows, Klondike cardsets and others. The CD features every AGA NFA release to date, including the brilliant 'Word' diskmag and 'Out of Space' Alien multimedia diskmags. These titles are official NFA releases.
- READY-TO-RUN. Most of the contents run straight from the CD. There is no need to spend ages extracting disks. Well over 300meg of ready-to-run hot utilities, diskmags, text files, demos, games and much more. Only

those titles which NEED to be compressed have been, these include Demos and slideshows which have to be stored in DMS format. Extracting these is as simple as double-clicking an icon in Workbench.

- MAGIC WORKBENCH colour scheme and icons. We have spent months making this CD the very smartest looking CD available today. Almost every program has a suitable MagicWB icon. We have even created custom Ray-Traced icons for the CD, any Amiga owner is guranteed to be impressed!
- OVER 80 Klondike cardsets. There is also a ready-to-run version of the brilliant Klondike card game, with 10 built-in cardsets. These include many quality cardsests we have created ourselves, and these are only available on this CD.
- LICENSED Amiga Report Diskmags. The entire 1995 collection so far - ready-to-view. A great resource for any Amiga owner.
- LOADS of MagicWB icons, backdrops etc. All you need to add a professional appearance to your Workbench.
- HUNDREDS of programs never before seen on CD. Mostly downloaded from BBSs from around the World, and straight from the Internet.
- ALL AGA Amiga Doom clones. If you thought Doom was impossible on the Amiga - take a look at this CD for a real surprise!
- THE LATEST AGA mega-demos. If you like being impressed by your Amiga, you'll find a great selection of demos on offer. There are many which are so new, that you won't have even heard of before - let alone seen!
- HIGH-QUALITY artwork and packaging. You'll be more than impressed with the quality of the Amiga-created artwork and packaging!
- PLUS hundreds of demos, games, slideshows, utilities, diskmags, texts, fonts, 3D objects etc. etc.

If you missed The AGA Experience, there are still a few copies available.

## 1.24 AGA Experience2

AGA Experience Volume 2  
 ~~~~~

ANNOUNCEMENT: NFA/SAdENESS Software AGA EXPERIENCE Vol 2 CD, OUT NOW!

Since the release of The AGA Experience Volume 1, we have been inundated with requests for a follow-up, so here it is!. If you own an AGA Amiga, or own a Graphics card - this is the CD for you!!! This is the first (well, second really) CD dedicated to A1200/A4000 owners, and features the very best AGA-only software since the release of The AGA Experience Volume 1.

The AGA Experience Volume 1 was loved by the reviewers, and its owners. Here is a selection of the review scores it achieved in the Amiga press:

93% - Amiga Format (Format Gold!).  
 90% - CU Amiga.  
 90% - Amiga User International.  
 90% - Amiga Shopper.  
 8/10 - Amiga Computing.

Reviews for Volume 2 to follow.. Great things are expected ;-)

Some of the main features, and improvements since the first CD are as follows:

- EXCLUSIVE COMMERCIAL DEMOS. We have contacted many of the Amiga's best software companies and they have created special demos of their best titles just for us! These include a demo of the BRILLIANT Capital Punishment - with special speech samples, and a 1-player vs computer game, with 2 different characters! An EXCLUSIVE demo of the GREAT Xtreme Racing! Including a special track made for us (which even includes our logo on the track!!). Also included are several goodies for Xtreme Racing owners - like the lemmings patch and several graphical improvements! We also have a great demo of Nemacs4 - the latest 3D Texture-Mapped Amiga game. Including special 060 fixes for you lucky 060 owners!! You'll also be the FIRST to see the great new AGA flight and combat sim - Microlyte warriors! Plus other goodies like exclusive Worms levels, a demo of Pinball Prelude, a demo of Watchtower and much more I have probably forgotten!

- EXCLUSIVE HTML DOCS AND AWEB. Yvon Rozijn has created us a special version of AWeb, and we have created some exclusive HTML Internet-style documents! You will see full-colour pictures, and you can even run some of the CD's highlighted programs directly from the interface!
- NFA PRODUCTIONS. Including The GREAT Word diskmags!
- READY-TO-RUN. Most of the contents run straight from the CD. There is no need to spend ages extracting disks. Well over 500meg of ready-to-run hot utilities, diskmags, text files, demos, games and much more. Only those titles which NEED to be compressed have been, these include Demos and slideshows which have to be stored in DMS format. Extracting these is as simple as double-clicking an icon in Workbench. IMPROVED since Volume 1 - there are now MANY less DMS archives to mess about with!
- MAGIC WORKBENCH colour scheme and icons. We have spent months making this CD the very smartest looking CD available today. Almost every program has a suitable MagicWB icon. We have even created custom Ray-Traced icons for the CD, any Amiga owner is guaranteed to be impressed! IMPROVED since Volume 1, with all the drawers in a clearer lay-out and neater look.
- LICENSED Amiga Report Diskmags. The entire 1996 collection so far - ready-to-view. A great resource for any Amiga owner.
- LOADS of MagicWB icons, backdrops etc. All you need to add a professional appearance to your Workbench.
- HUNDREDS of programs never before seen on CD. Mostly downloaded from BBSs from around the World, and straight from the Internet.
- ALL AGA Amiga Doom clones since the release of Volume 1. If you thought Doom was impossible on the Amiga - take a look at this CD for a real surprise! INCLUDING, wait for it,, a demo of Alien Breed 2 - The Killing Grounds! You won't believe your eyes!
- THE LATEST AGA mega-demos. If you like being impressed by your Amiga, you'll find a great selection of demos on offer. There are many which that are so new, you won't have even heard of before - let alone seen! INCLUDING a massive 15Mb+ WILD PARTY Demo!
- FULL COMPATIBILITY INFORMATION. We have listed where possible the compatibility requirements for the various demos on this CD. It will tell you required RAM, Processor and even whether it will exit back to Workbench! When you load a demo, it will tell you the requirements and give you the option to 'RunIt' or 'Cancel'. All you Amiga owners with 030+ will LOVE this feature!! ;-)
- HIGH-QUALITY artwork and packaging. You'll be more than impressed with the quality of the Amiga-created artwork and packaging! MUCH improved since the release of Volume 1!
- VIRTUALLY 100% indexed. There is now a more comprehensive index file, with most things fully described.
- PLUS hundreds of demos, games, slideshows, utilities, diskmags, texts, fonts, 3D objects etc. etc.

The AGA Experience Volume 2 is soon to be released, and will retail for just

---

£19.99 (GBP)!

We are now taking orders, and copies are limited so get your order in now!  
Pre-order prices are available - contact us for details..

RELEASE DATE: 13th April 96 (Hopefully for the World of Amiga Show UK!)

## 1.25 Contents

Contents of Utils Experience Volume 1

~~~~~

Index: Business

Contents:-

AmiBroker	- Stock Charting/Analysis program.
AmiCheck	- Powerful chequebook/accounts manager.
BancaBase	- Accounts program.
Blitzbank	- Banking program.
CDDatai	- Music CD database.
db2.9	- Good Database program.
DFA	- The Ultimate address program.
EasyBase	- Simple database that uses MUI.
EOrganiser	- Everyday organiser.
FiloFax	- A german organiser program.
FKM	- Business program?
Mui-Rechung	- Database program.
Onform	- Invoice/Orderform program.
PDBase	- Keep a database of your Amiga PD collection (MUI)
Recall	- The ultimate reminder program.
Scion	- Database for gene information.

Index: Comms

Contents:-

AmFTP	- File transfer prog for the internet.
AmIRC	- Chat program for the internet.

Aweb - GREAT web browser for the internet.  
 backarc - Dearchives downloads automatically.  
 HTML heaven - Make your own web pages.  
 InternetInstaller- Get on the 'net.  
 metamail - email prog for the internet.  
 Mftp - File transfer prog for the internet.  
 Mosaic - The famous Amiga WWW browsing software.  
 NCP - Some programs for you lucky Psion palmtop owners.  
 Term - The best Comms program on the Amiga!  
 Thor - Mail/News prog.  
 UUxT - This allows you to encode files to send them via E-Mail.  
 Voodoo - email prog.  
 Yam - email prog.

#### Index: Datatypes

##### Contents:-

AIFF - Sound Datatype  
 AOM\_RAW\_DT - Sound Datatype  
 BMP\_datatype - Picture Datatype  
 DTPrefs - Alter the settings for various Datatypes.  
 FontDT - Datatype for Amiga fonts.  
 GIF - Picture Datatype  
 HSN\_DT - Maxon Magic Sound Datatype  
 Icon - Another Icon Datatype.  
 InfoDataType - Amiga Icon Datatype  
 jfif\_dtc - JPEG/JFIF Picture Datatype  
 MacSND - Apple Macintosh Sound Datatype  
 MAUD\_dt - Toccata Sound Board Sample Datatype  
 PCX - Picture Datatype  
 PNG\_dt - PNG picture datatype (PNG - better replacement for GIF)  
 post - Postscript Datatype (requires post.library)  
 QRT\_DT - PovRay Dump Format Datatype  
 reko.datatype - Klondike Cardsets Datatype  
 SampleVision\_dt - MSDOS Sound Datatype  
 sun.datatype - Sun Raster file (SUN Picture) Datatype  
 TIFF - Tiff picture datatype.  
 TPD - Another PCX picture Datatype  
 TX16W\_DataType - Yamaha Sample Sound Datatype  
 VOC - Sound Datatype  
 WAV - Sound Datatype (Mainly IBM/PC)  
 wpg.datatype - Wordperfect Bitmap Picture Datatype

#### Index: Demos

##### Contents:-

ADpro - Image processor.  
 AFSDemo - Demo of the new Amiga filesystem (Advanced Users Only!!)  
 Amms - new BBS program.  
 Balls! - The best lottery prediction program.  
 blitzbasic - Probably the best BASIC on the Amiga.  
 CheckItOut - A demo of a great personal finance program.  
 Cinema-4D-Demo - This is one of the best Amiga Ray-Tracers.  
 DemoMania - Make your own demos.  
 DesignWorks - Demo of structured drawing program.

Diavalo - A BRILLIANT (MagicWB looking) backup program!  
 DigitalUniverse - This is the BEST astronomy program on any Machine!  
 Diskmagic - Opus-like program.  
 DPaintV - This must be the Amiga's more famous paint program.  
 EasyCalc - This is a brilliant easy-to-use spreadsheet program.  
 Els - Easyledgers business software.  
 FreeForm3D - Preview of great 3D modeler.  
 ImageFX - Demo of the great image processor.  
 MagicLink - A new 3D object conversion tool. (german)  
 Mand2000Demo - A BRILLIANT mandel program!  
 PBDemo304 - Don't know??  
 PgxDemol2 - Photogenics 1.2 -the BEST image processing program!  
 PMBS - another good BBS program.  
 PNDemo20c - Pro Net electornics program.  
 Raystorm - Raystorm is a very fast Raytracing program.  
 Reflect - Demo of reflections ray-tracer.  
 Sbase4 - Database  
 Sonic - Sonic Arranger music program.  
 StormC - Demo of great new programming language.  
 Stylus\_Demo - The latest structured drawing program.  
 Termite demo - A very good comms program.  
 TurboCalc - Another demo of a powerful Amiga spreadsheet.  
 TwistDemo - Probably the best Database on the Amiga.  
 Quill - Great new text editor.  
 X-DVE2 - Animation editing/playing program.  
 XiDemo - A great 24bit paint program.

## Index: Disktools

## Contents:-

AmiCDFFileSystem - A CDROM filesfyetm supporting Mac CDs.  
 AmiCDFFS2 - CDROM filing system.  
 AmiCDROM - Popular CDROM filesystem for SCSI CDROMS.  
 Atapi - Use IDE CDRom drives on your A1200/A4000. (Demo)  
 CacheIt - A Floppy Cache (speed-up) program.  
 CD32Goodies - Various little tools for CD32 owners.  
 CD32Tools - More utilities for CD32 owners.  
 CDPlay - A small CD player for Xetec CD software.  
 CD\_Stop - Stops the CD spinning on CD32.  
 DiskMon - Diskmonitor/Editor (USE WITH CARE!!)  
 DiskSalv2 - Recovers corrupted disks.  
 EmpCD - Use CDROM drives with Emplant and Shapeshifter.  
 HDOff - Switches off IDE drives after set time-saves power & noise.  
 HD-Tools - Various useful A1200 HD Tools (some German programs).  
 MFS - If you use different filesystems (PC etc) this is for you.  
 MRBackup - Good disk backup program.  
 Playcddal.1 - Play CD audio and MPEG files in DOpus 5.11.  
 ReOrg - Optimizes (speeds-up) disk access.  
 SlowReset - Pevents errors by allowing diskaccess to stop before reset  
 SmartCache - A Floppy Cache (speed-up) program.  
 StatRam3 - A RAM disk that survives resets.  
 Vdisk - RAD replacement

## Index: Emulation

## Contents:-

---

A4 - C16 Emulator.  
 Amoric - The first Oric Atmos emulator (including games)  
 Amstrad - 8bit amatrad emulator.  
 AppleII - A brilliant AppleII emulator (including games!)  
 Atari800 - Old Atari emulator.  
 AXF\_64 - Latest C64 emulator.  
 Emplant - This drawer contains miscellaneous tools for Emplant..  
 fmsx - emulates the little-known MSX computer.  
 Frodo - C64 emulator.  
 Gameboy - Have a guess!  
 MagiC64 - Very good C64 emulator.  
 MSX2 - Another good MSX emulator.  
 PC-TaskDemo3\_1 - Demo of great PC emulator.  
 Shapeshifter - A Shareware Macintosh Emulator (requires Mac ROM)  
 ST - Atari ST emulator - needs ROM.  
 ZXam Spectrum - Brilliant Speccy emulator (plus games!)  
 ZXFiles - Speccy diskmag.

## Index: Graphics

## Contents:-

1942PatchAGA - Updates WB to deal with 1940/1942/VGA/Multiscan monitors.  
 AAStarter - Use startup menu with VGA monitors.  
 Ad - GFX viewer/Ripper.  
 AGAiff - IFF to RAW convertor.  
 AGA\_Test - Shows all the colours the AGA chipset is capable of showing.  
 aMiPEG\_0.4 - Shows MPEG animations.  
 Amountains - Renders mountains on your Wb screen.  
 Anim3D - Plays 3D animations in multitasking windows.  
 AnimPoint - Animates the mouse pointer.  
 ART-Pro - Image manipulator/convertor.  
 AutoPeg - Automatically compress/decompress JPEG files (Needs MUI)  
 BeyondTheDark - New screen-saver.  
 BlitzBlank - Brilliant screen-saver (needs MUI)  
 BluffTitler - A real-time video titler demo.  
 Bview\_133 - IFF viewer.  
 CG\_Demo - AGA character generator for video work.  
 ChaosPro - A FABULOUS mandel/julia program!!!!  
 CheckAGA - Checks whether the AGA chipset is installed  
 cloudsaga - Creates beautiful AGA cloud patens.  
 CyberShow - Pic viewer for cybergraphics card owners.  
 CyberTV\_Player - Anim program for cybergraphics.  
 doublex - Ensures that all screens support VGA monitors.  
 DT2IFF1.0 - Converts Datatype pictures to IFF/ILBM.  
 DTView - Shows any picture you have a Datatype for.  
 Dynamics - A brilliant AGA paint program.  
 Dust - Rendering program.  
 FastJPEG - Fastest JPEG viewer available.  
 FastView - Shows IFF/GIF files.  
 FixSprite1\_03 - Fixes AGA pointer bug.  
 Flick\_1\_4 - Plays FLI/FLC animations.  
 FractalComp - Compress pictures with Fractal compression.  
 Fractint - Fractal/Mandelbrot generator.  
 FU - Great new mandel program (needs installing to hard drive)  
 Gif2PNG - This converts GIF pictures to the superior PNG format.

---

---

GfxCon	- Easy-to-use program to convert pictures to dif formats.
Graphics_Card	- This drawer contains programs which require a Graphics Card.
ham8-jpeg	- Shows JPEG pictures in HAM8.
IE	- Image Engineer is a brilliant Image Processor.
IFF_FX_AGA	- Small AGA picture manipulator.
IFF_Master	- Image processing program.
ImageStudio1.2.1	- Image processor.
ImageStudio	- V2.00 of the great easy-to-use Image Processor.
IPR_Demo	- Demo of FAST Intuitive Image Processor.
JIV	- AGA/GFX card picture viewer.
jpegAGA	- Another JPEG viewer.
MagicLayers	- Real Time windows.
MagnifiCAD	- CAD program.
MainActor	- Animation editor/player that supports many formats.
MandelTour	- Good Mandel program.
MonEd3a	- Edits properties of screenmode.
MP103	- MPEG animation player.
mpeginterface	- Interface to play MPEG animations.
Navigator	- A 3d virtual reality presentation program!
ntsc4ntsc	- Changes screenmodes (eg PAL to NTSC).
NTitler	- Realtime 3d video titling program!!!!
NWiper	- A realtime texture-mapping video program!!!!
patchpointer	- Prevents annoying LOWRES AGA pointers.
PCXAGA	- PCX picture viewer.
PhotoCD	- Loads PhotoCD pictures into Art Department Professional.
PhotoCDAGA	- Converts PhotoCD pictures to IFF/ILBM format.
PicCon	- Programmer's picture convertor.
PicScaler	- A program to scale IFF/ILBM pictures.
Plasma	- Plasma cloud generator - very pretty!
PlayKiss	- Plays 'KISS' animations.
PNG_Dt	- Datatype for PNG pictures.
povray	- 68040 only ray-tracer.
PPShow	- Flexible picture viewer.
PrintFractal	- Prints lovely fractals.
procurepens	- Colour setting software for WB3.0 or higher.
QuickGrab	- Screen grabber.
RaystorBin	- Ray-tracing program.
RaystorExa	- Examples for RayStorm.
Rend24	- Converts single frames to animations plus much more.
ScanCentre	- A scanning program for SCSI HP scanners.
ShowObj	- Shows 3d objects in a window (needs MUI).
ShowPCX	- Shows PCX pictures :-)
SplatterPt	- Powerful paint program.
SuperViewEL	- Shows many different formats, and grabs screens etc.
SSPro	- Creates 3d stereo pictures upto 24bit!
StusCDXL	- Play CDXL files from a smart interface!
TIFF43.1	- Datatype for TIFF 43.1.
TIFFView114	- Reads, Views and prints loads of different formats.
TPaint	- A 24bit paint program for AGA Amigas.
TSMorph	- Easy to use morphing program.
UltraConv	- One of the best picture converters around.
U_PAINT	- Simple paint program.
Viewtek	- Versatile picture viewer.
Visage	- WB3 Picture viewer.
Visuall.00	- Shows HAM8 'thumbnails' of your picture collection.
vr_world	- Virtual reality type 3D worlds.
wbverlauf	- Rainbow coloured WB backdrops.

---

WBView = Show HAM pictures on Workbench.  
 WBWinplay - Plays anims in WB windows.  
 WindowBlender - The author calls this 'Mind Candy' - who knows?  
 WSpeed14 - Tests the speed of your Amiga's graphics.  
 XAnim4 - Plays a multitude of different animation formats.  
 XFig - A brilliant structured drawing program (needs MUI).  
 xv218 - Great image processor (Requires MUI - Inside WBTools).  
 ZGIF - Fast GIF viewer.  
 ZGIF\_DRVR - Easy viewing of hundreds of GIFs.

## Index: Icons+Tools

## Contents:-

Associate - Checks file type and adds appropriate icon.  
 IconCopy - Easily manage your icons.  
 IconDeluxe - Fully-featured icon editor.  
 Iconian - The BEST icon editor!  
 IconInstaller - Another great icon manager.  
 Icons+Stuff - A great collection of Icons and WB backdrops etc.  
 IconToolBox - Converts pics to icons + more (Needs MUI)  
 IconTools - A collection of powerful tools for dealing with icons.  
 Opticon - Cuts down icons to save space.  
 Picticon - Easy program to add icons to pictures.

## Index: Misc

## Contents:-

3.0iUpdate - Update to the latest Pagestream.  
 Abgtwb3 - Guide to Workbench 3.  
 ActionReplay 5 - Grab pictures/mods from games etc.  
 AGA\_Switch - Switches off AGA chipset from WB.  
 Aiib - Performance tester.  
 AlBin-MUI - MUI cataloging program.  
 AlertTimer - Determines how long system alerts are displayed for.  
 AmiGlobe - Great educational program about the Earth (MUI)  
 Animan - Animated face on WB (needs sound sampler)  
 Artic1\_63 - Compresses files as they are used/saved (Real-Time).  
 Assist17 - Guide program.  
 AWS - Shows your system's info whilst booting. Neat.  
 BlueEyes v1.3 - Eyes that follow the mouse.  
 Boot020 - Boots CSA accel in 020 mode.  
 BootUte\_2 - This is a brilliant degrader program.  
 Busypointers - Neat AGA busypointers.  
 CPU-Control - Alters your processor caches etc.  
 CPULoad - Shows how busy your Amiga is.  
 CrMV1.9t - Powerful compressor.  
 Dopus511 - Update your original DOpus 5 to 5.11.  
 EasyDMS - Deal with DMS files easily.  
 EscomBoot - Boot pics with Escom Logo (No Icons)  
 exept49 - speed up hack.  
 FakeMouseCD32 - Use contoller as mouse on CD32.  
 FastBoot - Boot your amiga FAST!  
 FastMath406 - Faster maths libraries (needs FPU)  
 Funky - Graphs etc.  
 GetScreenID\_1.1 - Gives screen type of screen.

---

GoldEd - Powerful Text Editor (needs installing to Hard Drive).  
 Graph2Dv3.2 - More graphs.  
 HandPointer - A neat Hand pointer for WB3.  
 HandyDMS - Deals with .DMS compressed files.  
 Hsc - A tool to help develop HTML documents.  
 IFX21to21aPatch - Updates ImageFX 2.1 to 2.1a.  
 IntuiCookie BGUI - Random fortune cookies.  
 IntuiCookie Req - More random fortune cookies.  
 IPatch - speed-up hack.  
 Luminus - Text viewer.  
 Megasearch - CDROM database program.  
 MiserPrint - Printer utility for HP printer owners.  
 NCP - Some programs for you lucky Psion palmtop owners.  
 NFABoot\_V2.42 - Boot Util  
 NVRAM - Tool for altering the 1k non-volatile RAM on CD32.  
 PatchAllocMem - Changes CHIP RAM to FAST RAM.  
 PDBase - Catalogues your PD collection (needs MUI)  
 PicBoot - Shows a picture during booting.  
 Planetarium - Very good space program.  
 PointerX - Animates clock hands on mouse pointer.  
 PSPrt - This basically give you a postscript printer!  
 Scout - Great System Monitor.  
 SF\_VBlast - BLAST those viruses etc.  
 SteveHR - Mental talking head!?!?!  
 Studio - Updates Studio Printer software.  
 Sysihack - Changes look of scroll bars etc.  
 SysSpeed - Checks just how fast (or slow!) your Amiga is.. (MUI)  
 TapeCover - Designs covers for music cassettes.  
 Term - The best Comms program on the Amiga!  
 Text Engine - Great Shareware word processor with spell checker.  
 TRSIVW - Another good virus killer.  
 UUxT - This allows you to encode files to send them via E-Mail.  
 VirusChecker - Great Virus Killer.  
 VirusZ - VERY good virus checker.  
 VT - Another virus killer.  
 X-Windows - Nice WB look.

## Index: Music

## Contents:-

AudioLab - Very powerful new music program.  
 Camouflage - MIDI tool.  
 Delitracker - Great Mod player.  
 FP\_ADPCM - Some sound tools for CDROM owners. (that's you!)  
 Gfft - Sample Program.  
 HippoPlayer - Modplayer  
 Interplay - Audio CD Player.  
 Play16 - Plays loads of different sound formats (like WAV)  
 SoundBox - Powerful music utility.  
 Stonetracker - Music tracker program.  
 Sympmh - Another music program.

## Index: Video

## Contents:-

BluffTitler - A real-time video titler demo.  
 CG\_Demo - AGA character generator for video work.  
 NTitler - Realtime 3d video titling program!!!!  
 NWiper - A realtime texture-mapping video program!!!!  
 VideoBackdrops - Some exclusive DTV backdrops.  
 VideoTitler - Another video titlin program.

Index: Workbench+Shell

Contents:-

AlertPatch - Patches your alerts.  
 AppTrashcan - Gives you a trashcan on your WB (Like the Apple Mac)  
 arq - This gives you great animated Workbench requestors.  
 AStart - Tool manager program.  
 Browser - A brilliant filemanager.  
 ClassAction - Works with ANY program type.  
 ClassPatch - Patches classact.  
 Colorado - MagicWB colour program.  
 ColorPatch - Changes Workbench Colour/Contrast/Brightness etc.  
 Csh547 - CShell is a brilliant powerful replacement for Shell.  
 CycleToMenu - Changes the 'radio' gadgets into menus - very good.  
 DaLastAlerts3 - Records last GURU/Software failure number.  
 DClock15 - Digital clock for WB.  
 Dhrystone - Standard benchmarking program.  
 Executive - This great program improves your Amiga's Multitasking.  
 ExtraInfo - Deluxe replacement for the original WB 'Information'.  
 FREAK BOOT V2.6 - Boot your 1200/4000 with extra goodies!  
 IconifyGadget - Adds iconfy gadget to windows etc.  
 KingCON1.3 - A very powerful Shell enhancer.  
 Luminus - Text viewer.  
 Madhouse - Latest screen saver.  
 MagicEye - Puts eyes that follow your Mouse on your Workbench.  
 MagicFrames - Makes your WB look better in Hi-Res modes.  
 Magicmenu - Greatly improves WB menus.  
 MCArchive - This is the very BEST clock program on the Amiga!  
 MCP - The all-in-one PD utility program (Needs MUI)  
 MCXP304 - Multi-purpose program.  
 ModePro - Screen Promotor (changes one screenmode for another)  
 MrCopper - Puts nice coloured patterns on WB screen.  
 MUI - Popular Workbench enhancer.  
 MultiCX - Small multi-purpose commodity (screen blanking etc.)  
 NewPatterns - Makes Workbench redraws faster plus much more!  
 NoAGA\_1.00 - Allows running of old progs by turning off AGA chipset.  
 PalReq24 - 24bit palette requestor.  
 PatchWBPens - Makes WB colour-handling better.  
 PKludge - Screen promotor.  
 PPrefs - Another screen promotor.  
 RainDIR - A very colourful replacement for standard DIR command.  
 Rings - Puts animated rings on your WB.  
 RO - A MUI based filemanager.  
 RO-Update - Update to RO.  
 RynoDocs - Docks brushes etc.  
 SetNewLook - Corrects the white on black menu problem.  
 ShutWB - Allows you to close WB for more memory.  
 SkyBoot - Nice boot program/pattern.  
 Speedsys1.0 - Small system speed-up patch.

Starter	- Starts programs from WB.
SwazInfo	- Replacement for WB Information command.
SysPic	- Nice picture program.
SystemPrefs	- Alter Cache etc. on all processors (up to 68060).
taskBar	- Executes program from the tool bar.
TBC	- Puts a clock in your WB titlebar.
TinyMeter	- Shows memory/drive space (needs MUI) Looks great!
TList	- A very detailed replacement for LIST command.
TM_Update	- Toolmanager update.
TollUhr	- Nice WB clock program.
Toolmanager	- Allows easy loading of WB programs.
TrashManager0.95	- Puts a trashcan icon on your Workbench screen.
VMM	- Virtual Memory (needs MMU)
WBHacksAGA	- Gives a 1024x768 screen and HAM icons.
WBInfo	- Opens the Workbench information window from the CLI.
WBMakeLink	- Makes an Icon Alias.
WBPi	- WB3 Palette editor.
WBStartup+	- Enhances the WBStartup drawer.
WBTitle	- Allows changing of text in Titlebar.
WCC	- WB colour changer.
Windoze'95	- Makes WB look like W95.
