

MYARC ADVANCED BASIC

When you enter MYARC Advanced BASIC, the left margin is set to 1 and the right margin to 80. The top and bottom margins are set to 1 and 24 respectively. Changing Modes resets margins to the default for that mode.

Examples

```
100 CALL MARGINS(3,30,1,24)
```

Sets all four margins to the default value in Pattern Mode.

```
100 CALL MARGINS(1,40,1,24)
```

Sets the left, right, top and bottom margins to the extreme edges of the screen in the 40 column Text Mode (Graphics(2,1)). This is the default mode.
