

BEEP

BEEP

Cross Reference

DISPLAY [AT], ACCEPT [AT]

Description

The BEEP command sounds a short tone when encountered as a command or program statement. BEEP is also an option in DISPLAY AT and ACCEPT AT commands.

You cannot use BEEP by itself as a program statement or as a command.

Example

```
100 CALL GRAPHICS(3,3)
110 DEFINT I,R,E
120 FOR I=1 TO 25
130 E=(437+I)-(RND*50)
140 R=(167+I)-(RND*50)
150 CALL PSET(RND*184,RND*480)
160 CALL DRAWTO(1,R,E)
170 DISPLAY AT(24,1)BEEP:R,E
180 FOR X=1 TO 1000::NEXT X
190 NEXT I
200 END
```

This program randomly selects the ROW COLUMN coordinates of 25 points and draws lines connecting them. Each time a line is drawn the values of ROW COLUMN are displayed in the left corner of screen and the BEEP sound is produced.
