NetWare Runtime

Q: What is NetWare Runtime?

A: NetWare Runtime is a 2 user version of NetWare which provides a platform for NetWare Loadable Modules.

Q: Can I buy NetWare Runtime?

A: NetWare Runtime is not sold separately. It is bundled with some application NLM's, for example, NetWare for SAA, NetWare for DEC Access, NetWare for LAT, MultiProtocol Router and NetWare Connect (except 2 user port version).
