Configure Workstation

Main Options

Welcome to the GroupWise Administration Snap-In Setup program. This Setup program allows you to:

Modify the NDS Schema

Install the Snap-In program files

Configure your workstation to run the NWADMIN Snap-In

Install Files

Specify the full path to the directory that the Snap-In program files will be copied to. If the directory does not exist, it will be created. Use the Browse button to select an existing directory.

Configure Workstation

Enter the full path to an existing GroupWise Administration (Domain) directory.

Enter the full path (or accept the default) to the Snap-In program files.

Use the Browse button to select an existing directory.

Modify NDS Schema

Use the option to make the necessary changes to your Netware NDS schema.
