

LIXSOUNDS offers a vast array of audio/visual enhancement software for your Macintosh computer that suits every taste. Whether you are an audio fanatic and want your Mac to be playing sounds all the time, or just enjoy collecting unique sound files that sound great, CLIXSOUNDS has what you have been looking for! From original sound creations, to digital 3-D animation clips that play automatically when your extensions load, CLIXSOUNDS has it all. Best of all, great audio from CLIXSOUNDS doesn't cost you a fortune, as do many commercially produced audio related software packages. Below is a complete description of all of the great products from CLIXSOUNDS.

Take your Mac to new heights with a sound package that enables your Macintosh to play sounds during virtually any function of your computer! The number one selling package from CLIXSOUNDS is CLIXSOUNDMASTER, and it allows you to do just that! Imagine a sound playing when your Mac starts up, a different one when you empty your trash, another when you insert a disk, eject a disk, make a file copy, restart, shutdown....every function with a different sound! Your Mac can even tell you when it's the top of the hour, 1/4 past, 1/2 past, or 1/4 'til the hour, and even chime the count of the hour! You'll never let your Mac sit silently again after CLIXSOUNDMASTER.

CLIXSOUNDMASTER is a full package that includes the System 7.5/Power Mac-compatible version of CLIXSOUNDMASTER, plus great sounds by CLIXSOUNDS to match the functions. You receive CLIXSOUNDMASTER and your choice of one of three settings files:

- **STEREO SETTINGS-** here's a great set of sounds for all who have an AV Mac or a set of stereo speakers. All of the sounds that come in this package are in stereo! From an amazing startup sound, to a stereo chime at every hour, or even a stereo ZAP! for your system beep, this package is a great sounding choice. Every sound file contains unique special effects that take advantage of your stereo capabilities and will leave your fellow Mac-users jealous! (Other additional disks to consider with similar style are: Stereo StartUps, Super Beeps, Sci-Fi Beeps #1 & #2, Stereo-Morph StartUp Movie, Stereo Holiday Series #1 & #2 and Beeps.)
- **CYBER-SOUNDS-** this is the coolest way to make your Mac sound like the future! Imagine everytime you start your computer hearing a dark rumbling techno-type sound with a hi-tech female voice saying "Welcome...system StartUp has been initiated." Other sounds include great sci-fi atmospheres as this excellent style of sounds turns your Mac into a technological world of its own. These sounds are very unique and a

great choice for you cyber-punks! (Other additional sound packages to consider with similar style are: Sci-Fi Beeps #1 & #2, Digital Entry and Cosmo Welcome StartUp Movies.)

- **SEDUCTIVE SETTINGS**- the famous CLIXSOUNDS female voice from

the ' seductive startup' line of CLIXSOUNDS greets you at startup, wishes you goodbye, thanks you for inserting a disk, tells you to 'come again soon', and more! Each sound has unique, very sensual background sound as this beautiful voice addresses you every time a function is performed on your Mac. A perfect settings choice for everyone who loves the 'seductive startups!' (Other additional disks to consider with similar style are: Seductive Series, Super Beeps, Holiday Series #1 & #2 and Beeps.)

Every sound that comes with your CSM package was carefully created so that sound quality will be at a maximum. Each sound is a high resolution 8-bit, 22kHz sample. Each settings package comes with approximately 15 sounds designed and titled for easy setup to the functions for which they were designed.

Advantages Of Owning CLIXSOUNDMASTER:

Perhaps the only downside of shareware versions other sound utilities of this type is the fact that it does not come with any sounds, especially high-quality ones. It can be a troublesome task to put together a complete package of sounds that fit every function of the program, but that's where CLIXSOUNDS comes in! You won't have to do a bit of looking for cool sounds...they come with the package!

Setup of CSM is simple. Its installer places it right where it needs to be, and all you have to do is assign the sounds you want to play. A full electronic manual is included that will walk you through the setup step-by-step.

CLIXSOUNDMASTER supports several other functions as well that you can add sounds to if you choose. There are always tons of great sounds available from CLIXSOUNDS, either on disk, as described below, or at the CLIXSOUNDS WWW site at <http://www.edmondsun.com/clix/> .

You also receive technical support and information on future upgrades, as well!

LIXSOUNDS has created hundreds of fantastic sound samples that are available for your use, as well as some digital animation modules that play when your extensions load at StartUp. Below are descriptions of the packages that CLIXSOUNDS offers. You do not need to purchase CLIXSOUNDMASTER to purchase these disks, as they can be used on any Macintosh.

Sci-Fi Beeps #1 & 2: For you Sci-Fi and techno fans, this series of great stereo beeps is just what you're looking for. Each set contains several unique stereo system beeps that render a very hi-tech atmosphere. Every beep is a crystal clear stereo sample and the series is available both in 8 and 16-bit format. The series is divided into two sets since there are several sounds of this type, and goes great along with your Cyber settings for CLIXSOUNDMASTER.

Super Beeps: This set of beeps contains a number of various stereo system beeps that range in style, but are very original and entertaining. Each beep has excellent special effects and will add great personality to the sound of your Mac. The set is available in both 8 and 16-bit formats.

StartUp Sampler: Get the collection of a few of the most popular StartUp Sounds created by CLIXSOUNDS! This package contains several of the most unique, widely-circulated sounds from the CLIXSOUNDS library. Save hours of downloading time by ordering this disk of sounds and have them right at the click of a mouse. This package contains 22kHz mono samples that are very easy on the hard drive space.

Stereo StartUps: For all of you stereo fanatics, here is a great sampler disk of great StartUp Sounds that have extraordinary stereo effects! This disk contains several stereo 22kHz samples that are sure to rock those stereo speakers or headphones.

Seductive Series: Designed for everyone who likes to hear a beautiful female voice from within their computer, the Seductive Series package contains all of the most popular sounds from the CLIXSOUNDS Seductive series. Each is a 22kHz sample with beautiful background music and a gorgeous female voice! This disk is a must for anyone who's ordered CSM with the Seductive Settings!

Holiday StartUps : Here is an excellent choice for those who like seasonal sounds! From the library of the CLIXSOUNDS Holiday Series, these sounds are some of the

most incredible sounds available! Each one is crafted to sound as though it is a full symphonic orchestra playing right inside your Mac! Short, powerful clips from popular carols like "The First Noel," "Silent Night," "Joy To the World," and many more, these sounds are available both in mono and stereo versions.

Holiday Beeps: To compliment your Holiday StartUps, CLIXSOUNDS also offers the Holiday Beeps package. This set of sounds contains very short, but unique Christmas beeps that are all in stereo and will be sure to bring some Holiday Spirit to your Mac. The set is available in both 8 and 16-bit formats.

StartUp Movies:

Starting up your Mac no longer has to be a boring process! CLIXSOUNDS offers these original 3-D digitally animated StartUp Movies that play automatically when your extensions load! The only software necessary to run these modules is Quicktime. As soon as your Quicktime extension loads, the movie appears, centered in your screen, and plays automatically, along with its soundtrack. It takes no extra RAM!

Stereo-Morph: A great way to intro every session to your Macintosh with the popular "morph" effect, which is one image melting into another, as the word "Macintosh" is spelled out one letter at a time, beginning with "M" then morphing to "A," then to "C," and so on. A very cool stereo soundtrack is embedded in the clip as well, making it a complete animation that is sure to impress anyone.

Digital Entry: This clip goes well with the CLIXSOUNDMASTER "Cyber Settings," as it is a futuristic animation of a "countdown to startup." It begins from the number "5," which revolves, seamlessly turning into "4," counting down to zero, while a simultaneous soundtrack plays. Great for any Sci-fi fan!

Cosmo Welcome: Anyone intrigued by the beauty of outer space is sure to love this clip, as its background is of a beautiful space-scape scene, as the words "Welcome To Macintosh" each seem to drift towards you, each from their own direction, ending in a spectacular formation that concludes the clip. This animation also contains a very "spacy" soundtrack.
