LOOK NO FURTHER!!!

IMPRESS YOUR FRIENDS EVERY TIME YOU START YOUR MAC!!!

An incredibly sexy, seductive voice saying to you "Welcome to Macintosh, (Your Name Here) " or "Hi there, (Your Name Here), I've been waiting for you!"

Or a dark, mysterious Cyber-atmosphere with a deep voice saying "You are now entering the world of (your name here)."

For you, I can make ANY sound just how you want it, whether it be a startup, shutdown, or custom beep for your Mac.

The sounds...

Choose a multitude of sounds to mix, edit, and add effects to, and I'll make it just how you want it! Have music, sound effects, a voice, or all three! **It's your choice!** If you want, I'll even use YOUR voice! If I don't have a sound similar to one you would like to use, I'll either find it or make it! Also, if you're not sure exactly what you want, I'll help you out by giving you lots of ideas to choose from.

Your sound will be digitally produced on a Power Macintosh 6100/60 AV and mixed with multi-track sound software. Choose from numerous affects that can be added to any or all of the sounds that you choose to use. Sounds are available in System 7, AIFF, or .WAV File formats.

NOW AVAILABLE!!!

Now you can have your custom sound made in 16bit STEREO!!! If you have an AV card and would like your sound to include STEREO effects, I can do it for you! CLIXSOUNDS is the expert on making incredible stereo special effects! These sounds are BETTER than CD quality! STEREO sounds are also available for Macs supporting 8bit sound.
