

Introducing the BEST sound package for
Macintosh.....

CLIXSOUNDMASTER

That's right!!! CLIXSOUNDS has made an EXCLUSIVE agreement with Bruce Tomlin, author of SoundMaster, to bring you the ULTIMATE sound package for your Mac!

CLIXSOUNDMASTER is a full package that includes the NEW System 7.5/Power Mac-compatible version of Bruce Tomlin's sound program, SoundMaster, plus great sounds by CLIXSOUNDS to match the functions! You receive the disk with the special version of CLIXSOUNDMASTER with your choice of one of three settings files:

- **STEREO SETTINGS**- here's a great set of sounds for all who have an AV Mac or a set of exterior speakers. All of the sounds that come in this package are in STEREO! From a synthesized startup sound, to a stereo chime at every hour, or even a stereo ZAP! for your system beep, this package is a great sounding choice.

- **SEXY SETTINGS**- the famous CLIXSOUNDS female voice from

the 'seductive startup' line of CLIXSOUNDS greets you at startup, wishes you goodbye, thanks you for inserting a disk, and blows you a kiss to chime the hour, and more! A perfect settings choice for everyone who loved the 'seductive startups!'

- **SUPER SOUNDS**- this is the choice for you if you don't prefer a great female voice, or stereo sounds. This one includes a variety of great sounds from musical sounds to humorous phrases and other 'stuff.' This is no consolation choice...just one for those who like variety!

NOTE: These are just the preliminary packages being developed. In the future, there will be other settings files available for upgrade at a discount price for those who are among the first to purchase CLIXSOUNDMASTER.

Advantages Of Owning CLIXSOUNDMASTER:

Perhaps the only downside of the shareware version of SoundMaster is the fact that it does not come with any sounds. It can be a troublesome task to put together a complete package of sounds that fit every function of the program, but that's where CLIXSOUNDS comes in! You won't HAVE to do a bit of looking!

All CLIXSOUNDMASTER packages come with several sounds that will be preset to all of the essential functions that SoundMaster provides. The number of sounds will vary, as file size will be a factor, but each package will come with around 10 to 15 CD-quality 22kHz sounds. The package will be easy to install and maintain, and will be FULLY FUNCTIONAL even on Power PCs and 7.5 users!
