I hope you find this programme as useful as I do.  
best regards,

p.s.

A Newton MessagePad version is also available. Also \$10 Shareware.

p.s.

Special thanks to all the helpful people who read and answer questions on the Internet  
newsgroup comp.sys.mac.programmer.

p.p.s

The "Pro" bit is a joke. Plus there is a secret message hidden on the Data Window. See if you can  
find it.
