

## Registering Seeker

Hundreds of hours have been spent working on Seeker and by releasing Seeker to the public, I'm committing myself to spending many more. If it weren't for honest folks registering my software, I wouldn't even consider spending so much time in bettering and supporting my software. Seeker just wouldn't be as easily available, affordable, or include any decent support.

So by registering you not only directly help and encourage me to continue with my software, but you also indirectly help everyone else who's registered!

By registering you're entitled to free technical support and free updates when they become available. Also, in the near future you'll be able to request support for your favorite search engines when a plug-in-type architecture is added to Seeker. When requested, you'll receive by email a plug-in you can place into a Seeker Plug-ins folder.

## How to Register

Seeker is US\$15. I gladly accept checks, money orders and cash, but unfortunately I cannot accept payments using credit cards.

If you are a student and are unable to pay, or if you can only pay using a credit card, please send me an email at <mailto:stefan@antioch-college.edu> and we'll see if we can work something out.

My mailing address is

Stefan Anthony  
924 Talus Drive,  
Yellow Springs, OH, 45387  
U.S.A.

Please do not draw checks from non-U.S. banks! Banks tend to very charge large fees when dealing with foreign banks...

Thank you! I'm available at any time at <mailto:stefan@antioch-college.edu>.

I hope you enjoy using Seeker.

## Site Licenses

Site licences for Seeker are also available. Seeker can very easily be customized to support powerful machine- and site-specific commands. There's almost no limit to what AppleScript can do!

Type of licence	Cost
5-15 person license	= US\$60
11-25 person license	= US\$120
World-wide license	= US\$250

If you have a special need or if you feel you don't fall into any of these categories, please send me an email at <mailto:stefan@antioch-college.edu>.
