

Welcome to SU5's Meeting Maestro™! This file contains important information for the following applications:

Meeting Maestro 1.0 68K,  
Meeting Maestro 1.0 PPC, and  
Meeting Maestro 1.0 DEMO.

Thanks for trying Meeting Maestro 1.0. Here are the documents you should have:

ReadMe (SimpleText),  
Meeting Maestro 1.0 License (SimpleText),  
Meeting Maestro 1.0 Manual.pdf (Adobe Acrobat Reader 3.0),  
and one of the application files listed above.

If you have the demo version, you may use it for a trial period of 30 days from the first time you run it. It is fully functional otherwise, except that it will not print. Please support this unique software development effort by purchasing Meeting Maestro if you wish to continue using it after 30 days. The demo version will run on a 68K Macintosh (system 7.0, 25Mhz, 3MB free RAM, 3MB free hard drive space), or in emulation on any Power Macintosh. For convenience in meeting environments, we recommend a portable Macintosh model.

For all versions, you need Adobe Acrobat Reader version 3.0 or greater to read the user manual (Meeting Maestro 1.0 Manual.pdf). This by itself has a 3.5 MB minimum of RAM to run (5.0 MB on Power Macintosh). It can be obtained over the Internet from <http://www.adobe.com>.

Please read the license agreement in the document "Meeting Maestro 1.0 License." If you do not agree to the terms, please remove all Meeting Maestro software from any computers on which you may have already installed it.

If you have trouble getting started, send e-mail to [support@su5.com](mailto:support@su5.com).

Check the web site at <http://www.su5.com> for the latest information on Meeting Maestro.
