Battleship is a strategy game where two enemy players attempt to destroy each others' fleets by guessing the position of their enemy's ships. Boka Battleships is a Macintosh implementation of this classic strategy game.

It includes seven different levels of computer opponents, ranging from Little Johnnie to Grand Master. It also allows two human opponents to play each other, either on the same computer or two computers connected by a Local Area Network.

Boka Battleships is a shareware game. A single computer license for Boka Battleships costs $5 (US). After purchasing a license, all seven computer opponents will be available. For more information, see Purchasing Boka Battleships below.

## *Purchasing Boka Battleships:*
If you enjoy playing Boka Battleships, please purchase a license. A single computer license is only $5 (US).

Purchasing Boka Battleships is fairly simple. Payments are handled through the Kagi payment service. Go to http://order.kagi.com/?Q74. You will be required to enter your name, your email address, the number of licenses you wish to purchase, and your payment details.

When your payment to Kagi for Boka Battleships has been processed, you will receive a Thanks for your payment email. The email will contain your registration code and instructions telling you how to unlock Boka Battleships. Once Boka Battleships is unlocked, all of the computer opponents will be enabled.

## *Notice to Existing License-holders:*
If you have purchased a license for an earlier version of Boka Battleships and have not yet received your new registration code, please send an email to marcboxall@boka-software.com.

## *License:*
Boka Battleships is shareware.  Distribution is unrestricted, as long as the Boka Battleships application and any related files are not modified.

Boka Battleships is provided as is. Whilst every effort has been made to ensure it is safe, it is not possible to guarantee this.  Any loss or problems caused by the use of the software are the responsibility of the user.
