In any case where there is a discrepancy between information within this document and information on the Fast Rabbit Software web site or Master the Facts Multiplication home page the information on the web site should take precedence.

## 1. GENERAL INFORMATION

Master the Facts Multiplication is a no-nonsense drill and practice program to aide students in learning multiplication facts. This program was created in response to teachers requesting a "non-game" software tool to use in their classrooms to teach multiplication. It is currently used in homes and schools around the world. Students using Master the Facts Multiplication for as little as 10 minutes a day to practice multiplication skills may demonstrate marked improvement in multiplication skills on quizzes and tests.

The freely distributable version of Master the Facts Multiplication should be considered trialware. It gives you a chance to try out the Master the Facts Multiplication program, but you will be limited in that only the numbers 1-5 can be used as the initial factor and rounds are limited to 10 questions maximum. However, you can purchase a registration code that once entered into the program will allow you to select numbers 1-12 or random as the initial factor, and you will be able to select rounds of lengths 10-100 questions.

## 2. SYSTEM REQUIREMENTS

The latest version of the Mac operating system at the time of this release was Mac OS X 10.4.3. This program has been tested to work well with all versions of the Mac operating system versions 10.2 to 10.4.3. This program will not run on computers that do not have at least Mac OS X 10.2.

Versions of this program for other versions of the Mac operating system or other platforms may be found on the product home page at <http://fastrabbitsoftware.com/multiplication.htm>

## 3. WHAT'S NEW IN THIS VERSION?

- Now compiled as a Macho-O application.
- Minor internal code optimizations.

- Switch between English and Spanish language through PREFERENCES.
- Note: Some prompts, legal notifications, and windows including: Help, Educational Goals, and Registration are only displayed in English.
- Minor interface alterations throughout the program.
  - Help guide redesigned.
  - Newly designed printable fact chart.

#### **4. REGISTRATION INFORMATION**

Licensing: You may use Master the Facts Multiplication on one computer for each single computer registration purchased. Alternatively a site license registration is available for locations with many computers. The site license allows use of Master the Facts Multiplication on all computers within one physical location.

Single computer registration: \$9.95.

Site license: \$199.95.

##### Register Online

Register your copy of Master the Facts Multiplication through PayPal or Kagi's secure online order processing system. Find updates, version history, and order links on our web site at <http://fastrabbitsoftware.com/multiplication.htm> Your registration code will be sent to you via email. It will arrive within 1-2 days, often same day, of your order being processed.

##### Pay by Mail with Check

Payment by check made out in US denominations from US addresses can be sent to:

**Fast Rabbit Software, LLC**

**PO Box 534**

**Itasca, IL 60143**

Check should be made payable to Fast Rabbit Software. Include program title, version number, and your email address with your order. Include \$1.50 extra if you would like to receive your registration information via US Postal Service mail.

Details and a printable order form can be found online at

<http://fastrabbitsoftware.com/aboutregbymail.htm>

##### Register via Purchase Order (Schools Only)

Purchase orders from schools can be accepted for purchases of \$79 or more. Other options for ordering include PayPal or Kagi's secure online payment services, and payment by check.

Online payment options as well as current pricing can be found directly on each product's home page. Our index of products can be found online at <http://fastrabbitsoftware.com/index.htm>

When submitting a purchase order you **must include your email address** along with the listing of product titles and versions being ordered. Failure to include this information may result in your purchase order being returned without being processed.

Add \$1.50 to the total if you would like a copy of your registration information mailed to the address shown on the purchase order via standard US Postal Service mail. Please make sure that it is evident to who the registration information should be marked to the attention of.

Purchase orders may be faxed or mailed.

Our fax number is: **1 (847) 273-0549**.

or mail to:

**Fast Rabbit Software, LLC**  
**PO Box 534**  
**Itasca, IL 60143**

Payment is due upon receipt of registration information. Checks should be made payable to Fast Rabbit Software. Please use a copy of the registration information you receive in the case that a receipt or invoice needs to be turned in to your billing office. Accounts not paid in full within 45 days will result in a 10% late fee.
