

## Audio & Music

### June 2006

#### **Audiocorder 4.7.1**

demo

Black Cat Systems, [info@blackcatsystems.com](mailto:info@blackcatsystems.com), <http://www.blackcatsystems.com>

**Requirements:** Mac OS X or later

Audiocorder is an audio recording program. With the click of a button, you can record from any audio source that you connect to your Mac, through a microphone or a direct cable connection. Audiocorder makes it easy to record music, as well as make spoken recordings, and it can automatically transfer recordings to iTunes to add them to playlists or convert to MP3 format.

#### **Daily Guitar Jam Widget**

freeware

Roger Adler and Ryan Rempel, <http://www.dailyguitarjam.com>

**Requirements:** Mac OS 10.4 or later, or Amnesty Widget Emulation

Install the free Daily Guitar Jam Widget, and you'll have free access to a unique riff on your desktop each day by Emmy-nominated composer/producer/performer Roger Adler. Visit <http://www.dailyguitarjam.com> for more info on Roger's music, his CD, and other products used in the creation of the widget content. Rock your computer!

#### **iFill**

demo

Griffin Technology, <http://www.griffintechology.com>

**Requirements:** Mac OS 10.3.9 or later, iPod

iFill streams MP3 files from thousands of free radio stations directly to your iPod. You can choose several stations at once and select from many different genres. And since iFill goes directly to your iPod, it won't clutter up your hard drive with extra files.

#### **iSpectrum Analyzer 2.0**

trial

Dog Park Software, [info@dogparksoftware.com](mailto:info@dogparksoftware.com), <http://www.dogparksoftware.com>

**Requirements:** Mac OS 10.3 or later

iSpectrum is an easy-to-use audio-spectrum analyzer that allows the user to view live audio in a standard frequency plot, a stereo oscilloscope view, and a waterfall display. The user can adjust the display resolution, center frequency, and save images to disk.

#### **MP3-Info CMM 1.4**

freeware

West-Forest-Systems, [norbert@cdfinder.de](mailto:norbert@cdfinder.de), <http://www.cdfinder.de>

**Requirements:** Mac OS 10.2 or later

MP3-Info CMM is a Contextual Menu Module that displays information about MP3, AAC (iTunes), AIFF, and even WAV files, such as their duration, bitrate, and also the MP3-Tags, such as the artist, the title of the song, and some more, all directly inside the Finder.

#### **Podcast Maker 1.2**

trial

Potion Factory, [info@potionfactory.com](mailto:info@potionfactory.com), <http://www.potionfactory.com>

**Requirements:** Mac OS 10.3.9 or later, QuickTime 7.0.2 or later

Podcast Maker makes podcasting simple. Create your content the way you usually do, and then drag your content into Podcast Maker. As long as it's a podcast-friendly format (MP3,

M4A, MOV, MP4, M4V, PDF), Podcast Maker will podcast it.

#### **PodLock 1.1.4**

demo

Micromat, [info@micromat.com](mailto:info@micromat.com), <http://www.micromat.com>

**Requirements: Mac OS 10.3 or later, iPod**

With PodLock, you can create an "invisible" partition to hide important data, defragment file data on your iPod, back up and restore data on the primary iPod volume, manage picture and voice recordings, and display important and interesting technical information.

#### **Sound Byte 2.7.1**

demo

Black Cat Systems, [info@blackcatsystems.com](mailto:info@blackcatsystems.com), <http://www.blackcatsystems.com>

**Requirements: Mac OS X or later**

Sound Byte is a computerized cart machine for the Macintosh. It is very similar to the so-called cart machines used at radio stations in the past. Each recording--a jingle, an advertisement, and so on--was on a cartridge, which could be quickly selected and played.

#### **viewTunes Jukebox**

demo

Amphonic Designs, [support@amphonicdesigns.com](mailto:support@amphonicdesigns.com), <http://www.amphonicdesigns.com>

**Requirements: Mac OS X or later, iTunes**

viewTunes is a powerful music player that offers a better way to enjoy your iTunes Music Library. The intuitive interface allows you to visually browse your music collection with album artwork organized by artist or album name.
