

Ashalii 1.3.1

Connect colored pieces to remove them while fitting shapes together. Advance through increasingly difficult levels to escape the Ashalii Trap.

Requirements

Mac OS X 10.1 or later.

Description

Ashalii is a unique and challenging arcade puzzle game. Connect pieces of the same colors to remove them while fitting shapes into the game board. Each level requires more adjacent matching pieces than the last. The game features a trapped-in-space theme, with engaging outer space backgrounds and beautiful fractal game pieces.

Help

Instructions are located inside the software.

Evaluation and Registration

In evaluation mode, almost all features are available, but game play time becomes limited after the first level. Register to remove these limitations! You'll also get a "Start at Level" feature.

Registration takes only a few minutes, from clicking on the Open Store button to unlocking your software. To get started, either open Ashalii and click on Register, or follow the registration link at **www.curryk.com**.

If you need any assistance during registration, write to **support@curryk.com**.

License and Terms

These are provided in the License & Terms of Use file.
