A-OK! The Wings of Mercury 3.6

demo

Pyramid Design, info@pyramiddesign.us, <http://www.pyramiddesign.us>

Requirements: Mac OS 1.1.5 or later, OpenGL-compatible 3D card with at least 16MB of memory

A realistic simulation of the Mercury spacecraft, featuring 3D graphics, fully functional control panels, and networked simulations.

Ashalii 1.3.1

shareware

Curry K. Software, info@curryk.com, <http://www.curryk.com>

Requirements: Mac OS 10.1 or later

Ashalii is a challenging arcade puzzle game. Connect pieces of the same colors to remove them while fitting shapes into the game board. Each level requires more adjacent matching pieces than the last. The game features a trapped-in-space theme, with outer space backgrounds and fractal game pieces.

Bloxtter 1.3

demo

Norbyte, info@norbyte.com, <http://www.norbyte.com>

Requirements: Mac OS 10.2 or later

Bloxtter is an arcade/puzzle game where you drop colored blocks and try to form lines of three or more, and it has over 30 different variations ranging from simple but fun designs to arcade-like boards with alien monsters and bonuses. The player's job as a Bloxtter is to produce energy in a block reactor, using colored blocks and various tools. To make things more complicated, if playing in Arcade Mode, the surroundings are inhabited by alien life-forms that just love to wreak havoc. The fact that this game features modern 3D graphics is evident from the first moment of gameplay, as the block reactor sways under the weight of the falling blocks and removed pieces come flying toward your face.

Magic Dice 1.0.2

shareware

Mike Yenco, <http://www.yenco.com>

Requirements: Mac OS 10.2 or later

Magic Dice is based on a dice game which consists of 13 rounds, at the end of which the player with the highest score is the winner.

Multiplication Madness 2005

freeware

Ren Wilkinson

Requirements: Mac OS X or later

Multiplication game.

Solavant 1.8

demo

Smallware, support@smallware.com, <http://www.solavant.com>

Requirements: Mac OS 10.3 or later

Solavant solitaire is hard: No all-luck games, no easy games, no shuffles stacked in your favor, no hints, and no cheats.

Uli's Moose 3.5

donationware

Uli Kusterer, contact@zathras.de, <http://www.zathras.de>

Requirements: Mac OS 10.2 or later

Pranks, witticisms, jokes, and insults--all from politely smiling Meese that pop up on your screen and babble the lights out of you.

UniSudoku

trial

UniSudoku, dave@unisudoku.com, <http://www.unisudoku.com>

Requirements: Mac OS 10.3.9 or later

UniSudoku allows you to play the popular game of Sudoku on your Mac. Enjoy the best aspects of the pencil-and-paper puzzle with all the advantages of playing on your Mac.
